# TABLE OF CONTENTS

## VOLUME 1

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>An Empirical Study on Factors Affecting Blockchain Start-ups’ Fundraising via Initial Coin Offerings</td>
<td>1</td>
</tr>
<tr>
<td>Blockchain and Trust: Refuting Some Widely-held Misconceptions</td>
<td>10</td>
</tr>
<tr>
<td>Cutting Out the Noise-Costly vs. Costless Signals in Initial Coin Offerings</td>
<td>19</td>
</tr>
<tr>
<td>Do You Trust a Trust-Free Transaction? Toward a Trust Framework Model for Blockchain Technology</td>
<td>28</td>
</tr>
<tr>
<td>Hierarchical Accounting Variables Forecasting by Deep Learning Methods</td>
<td>45</td>
</tr>
<tr>
<td>How Will Blockchain Change the Market Structure?</td>
<td>54</td>
</tr>
<tr>
<td>Initial Coin Offerings (ICOs): The Role of Social Media for Organizational Legitimacy and Underpricing</td>
<td>71</td>
</tr>
<tr>
<td>Smart Contracts and their Identity Crisis</td>
<td>88</td>
</tr>
<tr>
<td>Social Cryptocurrencies: Blockchain Adoption by Social Finance Organizations</td>
<td>97</td>
</tr>
<tr>
<td>The Architecture of Blockchain Organization</td>
<td>106</td>
</tr>
<tr>
<td>The Paradoxical Effects of Blockchain Technology on Social Networking Practices</td>
<td>123</td>
</tr>
<tr>
<td>To Token or Not to Token: Tools for Understanding Blockchain Tokens</td>
<td>140</td>
</tr>
<tr>
<td>Towards a Business Model Taxonomy of Startups in the Finance Sector using Blockchain</td>
<td>157</td>
</tr>
<tr>
<td>Bitcoin Resistance Behavior: A QCA Study Explaining Why Individuals Resist Bitcoin as a Means of Payment</td>
<td>166</td>
</tr>
<tr>
<td>Unraveling the Effects of Google Search on Volatility of Cryptocurrencies</td>
<td>183</td>
</tr>
<tr>
<td>A Modeling Method in Support of Strategic Planning: Language Design and Application</td>
<td>192</td>
</tr>
<tr>
<td>A Reference Enterprise Architecture for Holistic Compliance Management in the Financial Sector</td>
<td>201</td>
</tr>
<tr>
<td>Data-driven Customer Journey Mapping in Local High Streets: A Domain-specific Modeling Language</td>
<td>218</td>
</tr>
<tr>
<td>Emergence of Data and Non-Data Team Networks: An Agent-Based Model</td>
<td>227</td>
</tr>
<tr>
<td>Prior Domain Knowledge and Ontological Overlap in Combinations of Conceptual Models</td>
<td>244</td>
</tr>
<tr>
<td>Rethinking the Role of Conceptual Modeling in the Introductory IS Curriculum</td>
<td>253</td>
</tr>
<tr>
<td>The Role of Application Domain Knowledge in Understanding Supply Chain Process Models</td>
<td>262</td>
</tr>
<tr>
<td>Towards Value Proposition Mining - Exploration of Design Principles</td>
<td>271</td>
</tr>
<tr>
<td>An Action Design Research of a Sensor-Based Elderly Monitoring System for Aging-in-Place</td>
<td>280</td>
</tr>
<tr>
<td>Capabilities and Impediments to Leverage Customer Value from Data à la A Case Study from the Automotive Industry</td>
<td>289</td>
</tr>
<tr>
<td>Channel Multiplicity in Digitized, Connected Products</td>
<td>306</td>
</tr>
<tr>
<td>Demand Effects of the Internet-of-Things Sales Channel</td>
<td>323</td>
</tr>
<tr>
<td>Designing Algorithmic Dynamic Pricing from an Ethical Perspective</td>
<td>340</td>
</tr>
<tr>
<td>Information Diffusion Between Twitter and Online Media</td>
<td>349</td>
</tr>
<tr>
<td>The Algorithmic Interaction Order in Open Source</td>
<td>358</td>
</tr>
<tr>
<td>Towards a Framework for Information Privacy in Complex Service Ecosystems</td>
<td>375</td>
</tr>
</tbody>

</table>
When Smart Gets Smarter: How Big Data Analytics Creates Business Value in Smart Manufacturing ................................................................. 384

An Attitudinal Ambivalence Approach to Examine Inconsistent Effects of Privacy Concerns ................................................................. 393

Jongyu Yu, Paul Hu

Are You The Reason Fake News Exists? Investigating News Sharing Attitude on Twitter ........................................................................... 410

Maximilian Huang, Heiko Gerwald

Consumer Perception of Data Security: A Trust Transfer Perspective ........................................................................................................... 419

Henner Mohr, Zhijing Walter

Cross-Cultural Fear of Online Identity Theft: A Comparison Study and Scale Refinement ................................................................. 428

Gianfranco Walsh, Patrick Hille, Edward Shi, Louise Hassan, Biao Takahashi

Do Me a Favor - The Role of Social Relations for Information Security In- and Extra-Role Behavior ................................................................. 437

Michael Hartmann, Lennart Jaeger, Andreas Eckhardt

Individual's Security and Privacy Behavior on the Use of Unfamiliar Wireless Networks: Habituation Theory Perspective ................................................................. 454

James Wairimu, Emmanuel Ayahuri, Francis Andoh-Baidoo

Why Do People Geo-Tag Themselves on Social Media? Role of Self-esteem, Need for Online Affiliation and Privacy Calculus ................................................................. 463

Sarbottam Bhagia, Dan J. Kim

Sustained Secure Behavior and the Role of Self-Efficacy ................................................................................................................................. 472

Ali Vedadi, Merrill Warkentin

The Impact of Data Breach Severity on Post-Breach Online Shopping Intention ................................................................................................. 481

Zara Arvazpour, Rohit Valecha, Rajashri Chakraborty

The Impact of Information Sharing Legislation on Cybersecurity Industry ........................................................................................................... 490

Sun-Kyoung Yang, Young-Jun Kwon, Sung-Yong Tom Lee

The Influence of SME Constraints on Organizational IT Security ................................................................................................................................. 523

Margareta Heidt, Jin P. Gerlach

The Privacy Calculus under Positive and Negative Mood States ................................................................................................................................. 540

Tasfij Alashhoor, Nader Al-Maidani, Ibrahim Al-Jabri

The Role of Parallelism in Resolving the Privacy Paradox of Information Disclosure in Social Networks ................................................................. 557

Nicholas Martin, Christian Matt

Unblackboxing the Effects of Privacy Regulation on Startup Innovation ................................................................................................................................. 566

Simon Trang

When Does Deterrence Work? A Moderation Meta-analysis of Employees' Information Security Policy Behavior ................................................................. 583

A New Look at an Old Problem: How Digital Representations Can Support Data-Driven Decision-Making in Organizations .................................................................................................................................

Cross Domain Approximate Matching of User Shared Content for User Entity Resolution .................................................................................................................................

Customer Data Acquisition with Predictive Analytics .................................................................................................................................

Does the Internet Create Healthier Societies? A Spatial Analysis of Health Outcomes and Internet Access .................................................................................................................................

Fixing Racial Discrimination through Analytics on Online Platforms: A Neural Machine Translation Approach .................................................................................................................................

Identifying Patient Experience from Online Resources via Sentiment Analysis and Topic Modelling Approaches .................................................................................................................................

Impact of Business Analytics on Organizational Outcomes: Role of Analytical Insights and Usage .................................................................................................................................

Leveraging Big Data and Analytics for Auditing: Towards a Taxonomy .................................................................................................................................

Felix Krieger, Paul Drews

Modeling Brand Personality with Business Value of Social Media Analytics: Predicting Brand Personality with User-generated Content and Firm-generated Content .................................................................................................................................

Oil Prices Forecasting: A Comparative Analysis .................................................................................................................................................................

Manas Tripathi, Inderjeet Kaur

Predicting Complainers on Social Media: A Machine Learning Approach .................................................................................................................................

Yuheng Hu, Ali Tafifi, David Gal

Predicting Time to Upgrade under Successive Product Generations: A Survival Model with Exponential-Decay Baseline Function .................................................................................................................................

Xintao Qiu, Aslan Lotfi, Zhengrui Jiang

Protecting Privacy When Releasing Query Results with Multiple Records Per Person .................................................................................................................................

Hasan Kartal, Xiao-Bai Li

Readmission Risk Prediction for Patients with Heterogeneous Hazard: A Trajectory-Aware Deep Learning Approach .................................................................................................................................

Jiasheng Xie, Bin Zhang

Session-Based Learning for Anchor Ranking on Live Streaming Platforms .................................................................................................................................

Joseph Chen, Hongyan Liu, Jun He, Qiuqiang Zheng

Should I Buy my New Iphone now? Predictive Event Forecasting for Zero-Inflated Consumer Goods Prices .................................................................................................................................

Benjamin Buchwitz, Ulrich Kasters
smartCVC: A Novel Startup Selection Method for Corporate Venture Capital
Buiyan Xu, Haoliang Chen, J. Leon Zhao

The Information Content of Multiword Hashtags
Zvi Ben-Ami, Toner Geva, Inbal Yahav

The Role of Personality in the Diffusion of Digital Media
Haris Kriegerstoc, Rajiv Garg, Maytal Saar-Tsechansky

Understanding the Role of Two-Sided Argumentation in Online Consumer Reviews: A Language-Based Perspective
Bernhard Lutz, Nicolas Proloschs, Dirk Neumann

VOLUME 2

Unpacking Impact in Science: The Explanatory Power of Citations
Matthias Budger, David Antons, Oliver Salge

What Are They Saying? A Methodology for Extracting Information from Online Reviews
Wael Jabr, Yichen Cheng, Kai Zhao, Sanjay Srivastava

Comfort-as-a-Service: Designing a User-Oriented Thermal Comfort Artifact for Office Buildings
Svenja Laing, Niklas Kuhl

Demystifying the Paradox of Stability and Flexibility in Information Systems Design: An Affordance Perspective
Suiman Sun, Meng Zhang

In-Situ Simulation in Design Science Research: Evaluation of Complex Design Artifacts
Hoang D. Nguyen, Oystein Eiring, Danny Poo

Information Systems Design Science Research and Cumulative Knowledge Development: An Exploratory Study
Richard Schuster, Gerit Wagner, Guido Schryen

Interleaved Learning: A Design Science Approach and Field Experiment
Tao Li, De Liu, Yufang Wang, Sean Am Xiu

Making Digital Nudging Applicable: The Digital Nudge Design Method
Tobias Morsch, Christiane Lehrer, Reinhard Jung

Scholar-friend Recommendation in Online Academic Communities: Approach Based on Heterogeneous Network
Yunhong Xu, Duanming Zhou, Jian Ma

The Noblest Way to Learn Wisdom is by Reflection: Designing Software Tools for Reflecting Sustainability in Business Models
Thorsten Schoormann, Dennis Behrens, Ralf Knackstedt

The Role of Cultural Differences when Using Different Classifications: An Experiment Design for Design Technique Selection
Xuanhui Liu, Karl Werder, Qian Zhao

Captive Targeting: A Field Study on Mobile Transit Advertising
Jingyao Hong, Il Im

Consumers’ Perceptions of Different Scarcity Cues on E-commerce Websites
Thomas Friedrich, Kathrin Figl

Controlling Government Corruption through IT: An Opportunity Theory Perspective
Atte Addás

Digitization of Land Records: From Paper to Blockchain
Raquel Benhunun-Fich, Arturo Castellanos

Effective Leadership in Public Sector BPM: A Case Study of an e-government Initiative in a Developing Country
Rehan Syed, Wasana Bandara, Erica French

Governing Open Data Platforms to Cultivate Innovation Ecosystems: The Case of the Government of Buenos Aires
Mariana, Ben Eaton, Stefan Henningson

Increasing Mobile Search Ad Spend: Cross-device Effects
Michelle Andrews, Ting Li, Francesco Balocco

Investigating of In-app Advertising Features’ Impact on Effective Clicks for Different Advertising Formats
Xiaoyu li, Xia Zhao, Lakshmi Iyer

Measuring The Effectiveness of Location-Based Mobile Push vs. Pull Targeting
Dominik Molitor, Martin Spann, Anindya Ghose, Philipp Reichhart

Membership-Based Free Shipping Programs: A New Vehicle to Gain Competitive Advantage for Online Retailers?
Geng Sun, Heasun Cavanagh, Srinivasan Ragunathan

Picture Perfect: An Image Mining of Advertising Content and Its Effects on Social Targeting
Hyunjoo So, Wonseok Oh

Practices on Digital Participation Platforms to Influence Public Policy: Cases from Brazil
Tatiane Rita Coelho, Maria Alexandra Cunha, Markus Pazzesbon

Reading Marathon: Understanding the Effect of Binge Reading on User-Generated Content
Angela Choi, Tianhui Sun, Huesung Lee

Supporting the Adoption Funnel with Differential Effects from Traditional Advertising, Online Displays, and a Micro-Influencer Campaign
Florian Dost, Ulrike Phieler

To Disguise or To Disclose? Effect of Mimicking News Articles on Sponsored Content Engagement
Quan Wang, Beibei Li

"Alexa, Buy Me a Movie!": How AI Speakers Reshape Digital Content Consumption and Preference

An Economic Analysis of Data Portability and Personal Data Markets

An Empirical Investigation of Sales Cheating Effect in E-commerce

Beauty and Counter-signaling in Online Matching Markets: Evidence from a Randomized Field Experiment

Do Political Differences Decrease Market Efficiency? An Investigation in the Context of Online Lending

Does One Size Fit All? Theorizing Governance Configurations for Digital Innovation

Understanding the Tangible within Information Systems

Understanding the Role of Technology in Coordination: An Affordance Perspective

Does Premium Subscription Pay Off? Evidence from Online Dating Platform

When Value Co-Creation Turns to Co-Destruction: Users' Experiences of Augmented Reality Mobile Games

User Interaction with AI-enabled Systems: A Systematic Review of IS Research

What Goes Around Comes Around: A Structural Matching Model of Online Lending

Regulation of Digital Platform Ecosystems: Evidence from Russia's Google vs Yandex Ruling

Pursuing Weak Paths: A Proposal for Performance Evaluation of Imputation in PLS

Does One Size Fit All? Theorizing Governance Configurations for Digital Innovation

Exploring the FinTech Jobs-Skills Fit of Financial and Information Technology Professionals: Evidence from LinkedIn

Free Shipping 3.0: Leveraging Scarcity and Popularity Information

Incentivizing Data Quality in Blockchains for Inter-Organizational Networks â€“ Learning from the Digital Car

Is Uber Helping or Hurting Mass Transit? An Empirical Investigation

Managerial Incentives and IT Innovation: The Moderating Role of CEO's IT-Education and Career Experience

Regulation of Digital Platform Ecosystems: Evidence from Russia's Google vs Yandex Ruling

A Primer on Decision Rights in Information Systems: Review and Recommendations

Aligning Practices in a Plurality Healthcare Context using a Performance Improvement System

Automated Facilitation for Idea Platforms: Design and Evaluation of a Chatbot Prototype

Consumer-driven Demand Estimation: Smart Storage IoT in SSCM of Perishables

Life on the Edge: Balancing Exploration and Exploitation in a Digital Era

Mobilizing Healthcare Across Geography through Telemedicine Consultations

The Information Systems Discipline's Identity Under Construction: Mining AISWorld

Understanding the Role of Technology in Coordination: An Affordance Perspective

Understanding the Tangible within Information Systems

User Interaction with AI-enabled Systems: A Systematic Review of IS Research

When Value Co-Creation Turns to Co-Destruction: Users' Experiences of Augmented Reality Mobile Games

Consensus through Blockchains: Exploring Governance Across Inter-organizational Settings

Cybersecurity Risk Management Using Analytics: A Dynamic Capabilities Approach

Digital Maturity: Conceptualization and Measurement Model

Does One Size Fit All? Theorizing Governance Configurations for Digital Innovation
Dynamics of Control Mechanisms in Enterprise Architecture Management: A Sensemaking Perspective .................................................. 1659
Raphael David Schilling, Kazem Haki, Stephan Aier

VOLUME 3

Enterprise Architecture as a Scapgoat for Difficulties in Public Sector Organizational Transformation .................................................. 1676
Maija Yli-Ojanperä, Samuli Pekkola

How Formal Governance Affects Multisourcing Success: A Multi-level Perspective ................................................................. 1689
Oliver Kranzheger, Ilan Osuri, Julia Kotlarsky, Jens DiBbern

How Management Consultancies Make Sense of Digital Strategy ........................................................................................................... 1706
Jan Stockinger, Rolf Alexander Teubner

Information Technology-Enabled Make Sense of Digital Strategy ......................................................................................................... 1707

Literature Review .......................................................................................................................................................................................... 1723

Janina Weingarth, Janek Richter, Christoph Rosenkrantz

Revelatory Case Study ..................................................................................................................................................................................... 1732
Robert Linden

IT Infrastructure Provisioning and IT Infrastructure Governance ............................................................................................................. 1741
Franck Loc. Soh Nenme, Panday Setia

The Relationship Between Digital Orientation and Firm Performance ................................................................................................... 1754
Sebastian Beschel

Value Co-creation in Digital Content Ecosystems: A Study of "Hallyu" ....................................................................................................... 1763
Hyungseok Kim, Felix Tan, Carmen Leong, Dongyeob Daniel Kim, Jan Ondrus, Barney Tan

Adaptation Behaviors of Gamified Information Systems ....................................................................................................................... 1772
Shih-Lun Tseang, Heshan Sun, Radhika Santhanam

Citizen's Gain? Institutional Logics and the Making of India's Aadhaar Identity Project ...................................................................... 1781
Priya Sethaswaran, Anirvan Pandey

Computer-mediated Knowledge Hiding As a New Form of Boundary Work in Organizations .............................................................. 1798
Joon Canha, Miguel Vega Perez

Digital Poison - Approaching a Theory of Toxic Behavior in MOBA Games .......................................................................................... 1814
Bastian Kordyaka

Distress, Eustress, or No Stress? Explaining Smartphone Users' Different Technostress Responses ....................................................... 1823
Markus Salo, Henri Pirkkalainen, Markus Makkonen, Risteik Heikela

Don't Worship the Stars: Ratings Inflation in Online Labor Markets .................................................................................................... 1840
Haim Bahman

Encouraging Online Review Posting with Push Notification: Evidence from a Randomized Field Experiment ...................................... 1849
Eunyeon Jung, Sunghwan Ryu, Daegon Cho

Feeling Safe on a Fluffy Cloud - How Cloud Security and Commitment Affect Users' Switching Intention ............................................. 1858
Konstantin Wilms, Stefan Stiegitz, Benedikt Müller

For Myself or Others? How App Service Design Affects Physical Retail Experience .............................................................. 1874
Ines Bieck, Steffen John, Waldemar Toporowski

From Usage to Contribution: A Synthesized Typology of Technology Extra-Role Behavior ............................................................... 1883
Huiyan (Melody) Zou, Yulin Fang, Heshan Sun, Kai H. Lim

Information Brokering in Globally Distributed Work: A Workarounds Perspective .............................................................................. 1899
Jade Wendy Brooks, Ilan Osuri, M.N. Ravishankar

Information Inconsistencies in Multi-Dimensional Rating Systems ........................................................................................................ 1916
Xin Zheng, Xingyao Ren, Yili (Kevin) Hong, Jisu Cao, Shu Yang

Interfirm Relational Governance through Media Choice and Communication Practices in the Coopetitive Context ......................... 1933
Joyce Yeu-Hui Lee, Carol Saunders, Niki Panteli

Is Digital Hoarding a Mental Disorder? Development of a Construct for Digital Hoarding for Future IS Research ......................... 1950
Darshana Sedera, Sachithra Lokuage

IT-Consumerization: Domain Control, (Reversed) Presenteism, and Stress ..................................................................................... 1967
Maximilian v.Welck, Manuel Trenz, Tina Blegind Jensen, Daniel Veit

Yeslam Al-Saggaf, Rachel MacCallum

Shopping or Dining? Analyzing User Behavior to Flight Delay ........................................................................................................... 1985
Saeening Li, Zisho Katona, Yuan Pham

Raymond Sison, Rabby Lavalles

Technology and Institutional Logics ............................................................................................................................................................. 2011
Peter-Andre Busch

Technology Use in Healthcare - An Activity-Theoretical Extension ....................................................................................................... 2028
Andreas Weeger, Helko Gewald

The "On-the-Hour Effect": How Do Users Allocate Time to Different Modules in e-Learning Apps? ...................................................... 2045
Lingli Wang, Xunhua Guo, Guoqing Chen

Theorising Antecedents of Cohesion and Conflict in Distributed ISD Project Teams ........................................................................ 2054
Stephen McCarthy, Paidi O’Raghallaigh, Ciara Fitzgerald, Frederic Adam

Too Unfair to Redeem? The Role of Fairness and Pleasure in Social Coupon Redemption ................................................................. 2071
Cheng Luo, Yi Zhou
Understanding Cross-border M-commerce Acceptance: An Integration of Commitment-trust Theory and Trust Transfer Theory .......................................................... 2080

Do You Trust Me? Facial Width-to-Height Ratio of Website Avatars and Intention to Purchase from Online Store ................................. 2201

Friending Acceptance on Social Media Apps: Does Tactile Interface Matter? ......................................................... 2210

Tangibleizing Your Service: The Role of Visual Cues in E-Tailing .......................................................... 2279

The Magic of Cinemagraphs: Investigation of Different Image Formats in Online Product Presentation ....................... 2296

A Reference Model for the Design of Service-Dominant Business Models in the Smart Mobility Domain ........................................ 2305

An Extended Perspective of Technology Pivots in Software Startups: Towards a Theoretical Model ........................................ 2322

App Superstars: Are High-Status Complementors a Sustained Source of Innovation in Platform Ecosystems? ........................................ 2339

Becoming Agile in the Digital Transformation: The Process of a Large-Scale Agile Transformation .......................... 2356

Can Digital Innovation Alter the Landscape of Women's Entrepreneurship? Towards A Research Agenda ................ 2373

Digital Platforms: Balancing Control and Generativity .............................................................. 2382

Digital Transformation: A Mutual Understanding and Strategic Alignment Perspective .......................................................... 2391

Does Personality Still Matter in Our Digitalized World? The Relevance of Hubris and Charisma for Crowdfunding Success .................................................. 2400

Entrepreneurship in the Digital Society .......................................................................................... 2416

Fostering Innovation: Exploration is not Everybody's Cup of Tea ........................................................................... 2428

Frugal Digital Innovation and Living Labs: A Case Study of Innovation in Public Health in India ....................... 2444

Internal Digital Platforms and Generative Mechanisms of Digital Innovation ...................................................... 2461

Legitimizing Digital Transformation: From System Integration to Platformization .................................................. 2478

Managing Platform Ecosystem Evolution through the Emergence of Micro-strategies and Microstructures .................. 2495
