21st IAHR-APD Congress 2018

Multi-perspective Water for Sustainable Development

Yogyakarta, Indonesia
2 - 5 September 2018

Volume 1 of 2

ISBN: 978-1-5108-8291-1
LIST OF CONTENTS

FOREWORDS FROM CHAIRMAN OF THE LOCAL ORGANIZING COMMITTEE ........i
FOREWORDS FROM CHAIRMAN OF THE IAHR-APD .......................................................... iii
LIST OF CONTENT ........................................................................................................ v
AUTHORS INDEX ......................................................................................................... xvii
KEYWORDS INDEX ...................................................................................................... xxv

VOLUME 1

KEYNOTE SPEECH
INTEGRATED WATER RESOURCES MANAGEMENT FOR BATHING AND SHELLFISH WATERS COMPLIANCE
Roger Falconer, Guoxian Huang, Binliang Lin ........................................................................................................... 1

EFFECTIVENESS OF A SHORE-PARALLEL CANAL FOR REDUCING TSUNAMI IMPACT
Hitoshi Tanaka, Kiyoshi Hashimoto, Nguyen Xuan Tinh ............................................................................................. 11

MOST COST-EFFECTIVE DEM AND RAINFALL DESIGN CURVES FOR ASSESSING FLOOD HAZARD OF PRESENT AND FUTURE CLIMATES
Shie-Yui Liong, Dong Eon Kim, Jiandong Liu, Srivatsan Vijayaraghavan, Ngoc Son Nguyen, Jina Hur ....... 19

URBAN STORMWATER MODELLING
James E. Ball .......................................................................................................................................................... 27

THE NECESSITY OF INTEGRATED MONITORING AND SIMULATION IN THE WATER AND SEDIMENT RELATED DISASTER RISK MITIGATION
Djoko Legono, Rachmad Jayadi, Adam Pamudji Rahardjo, Roby Hambali, Ani Hairani, Yutaka Gonda, Radianta Triatmadja, Akhyar Musthofa .............................................................................................................. 35

TECHNICAL PAPERS

SUBTHEME 1: RIVER (RIVER HYDRAULICS, RIVER BASIN ENGINEERING AND RIVER BASIN MANAGEMENT)

A NEW PERSPECTIVE ON ENERGY LOSS AT VERTICAL DROPS
Tsuyoshi Tada, Yoshimisa Miyata ............................................................................................................................... 43

MEASURING EFFECT OF GRAVEL AUGMENTATION USING RADIO FREQUENCY IDENTIFICATION (RFID) IN MOUNTAINOUS AREAS OF THE TRINITY RIVER, CALIFORNIA
Kanta Kano, David Gaeuman, D. Nathan Bradley ........................................................................................................ 51

TIME OF CONCENTRATION FOR DRAINAGE DESIGN CHARACTERISTICS
D Noorvy Khaerudin, Donny Harisuseno, Denik Sri Krisnayanti .................................................................................... 59

DOMINATING FACTORS INFLUENCING RAPID CHANNEL MIGRATION DURING FLOODS – A CASE STUDY ON OTOFUKE RIVER
Tomoko Kyuka, Yasuyuki Shimizu, Kazunori Okabe, Kho Shinjyo, Satomi Yamaguchi ..................................................... 67

EXPERIMENT ON BANK EROSION AND SEDIMENTATION IN FLUVIAL FUN USING MIXED-SIZE AND COLOR-CODED PLASTIC MEDIA
Shigeru Mizugaki, Takuya Inoue, Susumu Yamaguchi .................................................................................................. 73

GEOMORPHIC EFFECTIVENESS OF PEAK FLOWS IN UPPER AND MIDDLE TAPI RIVERS, INDIA
Resmi S R, P L Patel, P V Timbadiya ........................................................................................................................ 81
THE EFFECTS OF SEDIMENT ACCUMULATION ON THE SEVERE FLOOD DISASTER IN THE PEKEREBSUTSU RIVER CAUSED BY THE RECORD BREAKING RAINFALL IN HOKKAIDO, 2016
Tomoko Kyuka, Yasuyuki Shimizu, Yoshiaki Ishida .................................................................89

FLUME EXPERIMENTS ON LOG ACCUMULATION AT A BRIDGE IN MOUNTAIN RIVER
Muhammad Farid Maricar, Muhammad Islamy Rusyda, Haruyuki Hashimoto, Hiroyuki Nagano .........................97

EFFECTS OF NARROW PASS ON THE NAVIGATIONAL BRAIDED CHANNEL, THE AYEYAWDL RIVER IN MYANMAR
Tin Tin Htwe, Yuji Hasegawa, Hiroshi Takebayashi, Masaharu Fujita ......................................................105

STUDY TO MINIMIZE THE LOCAL SCOUR DOWNSTREAM OF STILLING BASIN
Yiniarti Eka Kumala, Slamet Lestari, James Zulfan .................................................................................115

HISTORICAL CHANGES OF FLOW AND SEDIMENT BUDGET IN VIETNAMESE MEKONG DELTA DUE TO UPSTREAM DAM DEVELOPMENT
Doan Van Binh, Tetsuya Sumi, Sameh Kantoush, Nguyen Phuong Mai ..................................................123

SUBWAY INUNDATION BY PLUVIAL FLOODING CONSIDERING WITH A NEWLY PLANNED LINE
Mitsuhiro Terada, Taisuke Ishigaki, Taira Ozaki and Keiichi Toda ...............................................................133

A SENSITIVITY ANALYSIS OF STORM WATER MANAGEMENT MODEL IN A RESIDENTIAL AREA
Chang Qing, So Kazama, Yoshiya Touge .................................................................................................139

SCOUR DOWNSTREAM OF CULVERTS
Sriparna Paira, Subhasish Dey, Chanchal Kumar Mukherjee ........................................................................147

EFFECT OF THREE-DIMENSIONAL FLOW STRUCTURE ON GENERATION MECHANISM OF LARGE-SCALE LOCAL SCOURING IN THE KISO RIVER
Akihiro Tominaga, Yuji Hara, Yuka Kuno .................................................................................................155

METHODS FOR PREDICTING DISCHARGE OF STRAIGHT ASYMMETRIC COMPOUND CHANNELS
Xiaonan Tang .............................................................................................................................................165

SERMO RESERVOIR CAPABILITY TO PERFORM ITS FUNCTION
Dyah Ari Wulandari, Suharyanto, Festi Alvi Rahmawati, Intan Saverat Damayanti ...........................................175

FUNDAMENTAL 3D MODEL TEST AND NUMERICAL ANALYSIS ON RESISTANCE AGAINST PERMEABILITY IN A LINEAR RIVER LEVEE
Yoko Machida, Yasuo Nihei, Yuki Kurakami ..............................................................................................183

PERFORMANCE IMPROVAL OF THE SETTLING BASINS OF KALIGANDAKI A HYDROPOWER PLANT, NEPAL
Meg B. Bishwakarma .....................................................................................................................................189

DETERMINING SEDIMENT FLUSHING PERIOD FOR WLINGI RESERVOIR AFTER MT. KELUD ERUPTION IN 2014
Dian Sisinggih, Fahmi Hidayat, Sri Wahyuni ..............................................................................................199

BEHAVIOR OF DRIFTWOOD IN TERMS OF CONVECTION – DIFFUSION EQUATION
Daisuke Harada, Shinji Egashira ................................................................................................................209

PREVENTION OF LEVEE CREST OVERTOPPING THROUGH REINFORCEMENT TECHNOLOGY
Asataro Shinohara, Yasuo Nihei, Yuki Kurakami, Kengo Suzuki ......................................................................217

ANALYSIS OF THE RUNOFF COEFFICIENT AT UPPER CITARUM WATERSHED DUE TO CHANGES IN LAND COVER
Ana Nurganah Chaidar, Indratmo Soekarno, Agung Wiyono, Joko Nugroho ................................................225

THE EFFECTIVENESS OF U.S.BERAO RECLAMATION’S TYPE 3 STILLING BASIN WITH LOWER TAIL WATER LEVEL ON THE WAY APU SPILLWAY DAM
Prasetyorini, Linda, Anwar, Nadjadji, Wardoyo, Wasis .............................................................................233
CHARACTERISTICS OF PHYSICAL ENVIRONMENT RESPONSES IN THE RIVER TRAINING BY SEDIMENT SUPPLY CONDITION
Xiang Chen, Ryuichi Hirakawa, Terunori Ohmoto .................................................................239

SAFETY EVALUATION OF THE WLINGI DAM AFTER SEDIMENT FLUSHING 2017
Teguh Winari, Kamsiyah Windianita, Didik Ardianto, Fahmi Hidayat, Raymond Valiant Ruritan ........247

INVESTIGATION ON THE CHANGING OF THE MEANDERING RIVER LENGTH WITHIN ITS MORPHOLOGICAL DEVELOPMENT
Agus Maryono, Adhy Kurniawan, Andri P. Nugroho .................................................................255

EFFECT OF SUPPLYMENT OF HIGH DO CONCENTRATION WATER ON WATER QUALITY IMPROVEMENT AND BEHAVIOR OF HAYVE METAL IN DAM RESORVIOR
Koji Asai, Tetsuo Ohwaki, Takumi Odamura, Ei-Ichi Hoshiyama, Hajime Shirozu .............................265

THE SIMPLIFIED OF SUSPENDED SEDIMENT MEASUREMENT METHOD FOR PREDICTING SUSPENDED SEDIMENT DISCHARGE IN NATURAL RIVER (CASE STUDY OF OPAK RIVER, YOGYAKARTA, INDONESIA)
Bambang Agus Kironoto, Bambang Yulistiyanoto, Bambang Triatmodjo, Mariatul Kaptiah, Rahmat Bangun Giarto, Obed Ebenezer Sitinjak .................................................................277

ANALYSIS OF LOCAL SCOUR AT BRIDGE PIER ON COMAL RIVER, CENTRAL JAWA, INDONESIA
Muhammad Mukhilsin, Supriyadi, Muhammad Rizal Wicaksono, Sugiarito .....................................289

IMPACTS OF LOW-WATER REVETMENTS ON CHANNEL TRANSITION
Yuki Morikawa, Yasunori Muto, Takao Tamura .................................................................297

DISCHARGE CHARACTERISTICS FOR TRAPEZOIDAL COMPOUND LABYRINTH WEIRS
Anees K. Idrees, Riyadh Al-Ameri, Lloyd Chua, Subrat Das ..........................................................303

BACKWATER RISE DUE TO BAMBOO DEBRIS ACCUMULATIONS AT A CULVERT BRIDGE DURING A FLOOD
Feni Safitri, Slamet Budiyono, Titik Wahyuningsih .................................................................313

INVESTIGATION OF FLOW REGIMES AND ENERGY DISSIPATION IN GABION STEPPED WEIRS
Mohammed A. Almajeed A. Alabas, Riyadh Al-Ameri, Lloyd Chua, Subrat Das ................................319

TRANSFORMATION OF BED SURFACE STRUCTURES AFTER DIFFERENT TIME LENGTH OF ANTECEDENT FLOW EXPOSURE
Yusron Saadi, Ida Bagus Giri Putra, Agus Suroso .................................................................329

RIVER DISCHARGE ANALYSIS BY USING MODIS IMAGE AND CHARACTERISTICS COMPARISON BETWEEN ESTUARY IN THE NORTHERN AND SOUTHERN COAST OF JAVA ISLAND
Dwi Agus Kuncoro, Wikhidatik Nurfaida .................................................................337

THE EXAMINATION ON URBAN INUNDATION DUE TO HEAVY RAIN BY USING VISUALIZATION FOR TRANSPORT OF RAINWATER
Masataka Murase, Makoto Takeda, Naoki Matsuo ........................................................................343

ESTIMATING SPATIALLY DISTRIBUTED OF SEDIMENT YIELD WITH GIS-RUSLE-SEDD MODEL IN CATCHMENT OF RESERVOIR IN JAVA
Muhammad Ramdhan Olii, Bambang Agus Kironoto, Bambang Yulistiyanoto, Sunjoto ................351

FIELD OBSERVATION AND NUMERICAL SIMULATIONS ON BRIDGE COLLAPSE CAUSED BY TYPHOONS DURING AUGUST 2016 IN JAPAN
Takuya Inoue, Tamaki Summer, Kazuo Kato, Hiroki Yabe, Yasuyuki Shimizu ....................................359

INVESTIGATING THE EFFECTS OF GEOMETRY ON THE FLOW CHARACTERISTICS AND ENERGY DISSIPATION OF STEPPED WEIR USING TWO-DIMENSIONAL FLOW MODELLING
Udai A. Jahad, Riyadh Al-Ameri, Lloyd Chua, Subrat Das ..........................................................369

ANALYSIS SEDIMENT TRANSPORT BABARSARI-MATARAM IRRIGATION CANAL
Agatha Padma Lakaraningtyas, Suniyati Gunawan .......................................................................377
THE IMPACT OF FLOOD-DETENTION BASIN ON FLOOD PROPAGATION IN THE HUAIHE RIVER
Bangyi Yu, Liemin Lv, Jin Ni, Jueyi Sui, Peng Wu .................................................................385

FUNDAMENTAL EXPERIMENT USING STEEL STAKES TO CAPTURE DRIFTWOOD ON AN
IMPERMEABLE TYPE SABO DAM
Norio Harada, Yoshifumi Satofuka, Takahisa Mizuyama .................................................................393

STUDY ON CAUSE AND MECHANISM OF HYDRAULIC STRUCTURES FAILURE IN
BANGLADESH
Kazumitsu Muraoka, Koji Asai, Yosuke Usui, Tatsuya Mochizuki .................................................................399

SUBTHEME 2: PORT, HARBORS, COASTAL ENGINEERING AND MANAGEMENT

THE ANALYSIS ABOUT LONG TERM VARIATION IN DENSITY STRATIFICATION OF ARIAKE
BAY BASED ON THE MONTHLY-OBSERVED WATER ENVIRONMENT DATA
Akira Tai, Yosuke Morimoto .........................................................................................................................409

IMPACTS OF SEDIMENT TRANSPORT DUE TO THE KUMAMOTO EARTHQUAKES ON AN
INTERTIDAL FLAT AT THE MOUTH OF THE SHIRAKAWA RIVER, JAPAN
Akira Tai, Keitaro Hattori, Yoshihisa Akamatsu, Koichi Yamamoto, Tomohiro Komorida, Ryutei Inui, Yasuo
Nihei .........................................................................................................................................................417

SALINITY TRANSPORT PREDICTION IN RIVERS DURING A TSUNAMI ATTACK: A STUDY OF
THE YODO RIVER IN JAPAN
Hiroshi Nagashima, Nozomu Yoneyama .........................................................................................................425

ANALYZING HARBOR LOCATION AND ORIENTATION BASED ON WAVES CONDITIONS: A
CASE STUDY AT WEST OF BORNEO
Alamsyah Kurniawan, Bayu Mujahidin, Krisnaldi Idris ................................................................................435

CURTAIN WALL BREAKWATER ANALYSIS USING DUALSPHYSICS (CASE STUDY: PORT OF
KUALA TANJUNG, NORTH SUMATRA)
Tedjo Kusumo Yohanes Adi, Nizam, Kuswandi ............................................................................................443

SEDIMENT TRANSPORT AND MORPHOLOGICAL MODELLING IN SINGAPORE STRAIT
Serene Hui Xin Tay, Seng Keat Ooi, Vladan Babovic ................................................................................451

COASTAL FLOODING AND SEDIMENT TRANSPORT DURING EXTREME STORMS IN THE
NORTHEASTERN USA IN A CHANGING CLIMATE
Qingping Zou, Dongmei Xie ..........................................................................................................................457

CONSIDERING ECOSYSTEM VALUATION FOR COASTAL ZONE MANAGEMENT BY USING
ECONOMIC VALUATION AND VISITOR PREFERENCES ON TOURISM ASPECT
Iwan Nursyirwan, Biota Fitrah, Betania Caesarirath L., Cecilia Ratna P S ..........................................................465

APPLYING LOW-CRESTED BREAKWATERS IN RESTORING ERODING MUDDY COASTS OF
DEMAG, CENTRAL JAVA
D.M.Sulaiman, B. Yongga, B.Wiryawan, M.R. Nugraha .................................................................................473

PRELIMINARY STUDIES OF DIKE PROFILES FOR JAKARTA OUTER SEA DIKE: PHYSICAL
MODEL TEST RESULTS
Agustia A. Larasari, Semeidi Husrin, Leo E. Sembiring, Huda Bachtiar ..........................................................483

SUBTHEME 3: ENVIRONMENTAL HYDRAULICS AND HYDROLOGY

EFFECTS OF RAIN DROPLETS AND SEA SPRAY ON THE MOMENTUM AND LATENT HEAT
FLUXES
Hiroki Okachi Tomohito J. Yamada, Yasunori Watanabe .................................................................................493

IMPACTS OF CASCADE HYDROPOWER DEVELOPMENT ON SALINITY INTRUSIONS INTO THE
VIETNAMESE MEKONG DELTA
Nguyen Phuong Mai, Sameh Kantoush, Tangdutchang, Tetsuya Sumi ................................................................503

APPLICATION OF TRMM FOR PREDICTIONS IN UNGAUGED BASIN, CASE STUDY: NANJUNG
CATCHMENT
Wanny Kristyant Adidarma, Bambang Adi Riyanto, Doddi Yudianto, Anri Noor Annisa Ramadan .............513
SIMULATION OF LARGE FRESH WATER BEHAVIOR IN HAKATA BAY DUE TO TORRENTIAL RAIN USING NESTED TWO-DIMENSIONAL MODEL
Akihiro Fukuda, Toshinori Tabata, Yuri Honda, Kazuaki Hiramatsu, Masayoshi Harada ........................................521

INVESTIGATION OF THE EFFECTS OF HUMAN ACTIVITIES USING MULTI-BOX ECOSYSTEM MODEL IN THE AIRAKE SEA, JAPAN
Toshinori Tabata, Kodai Nakashima, Kazuaki Hiramatsu and Masayoshi Harada ..................................................531

DEVELOPMENT OF A MESH-BASED DISTRIBUTED RUNOFF MODEL INCORPORATED WITH TANK MODELS OF SEVERAL LAND UTILIZATIONS IN A SOUTHEAST ASIAN WATERSHED
Asari Takada, Kazuaki Hiramatsu, Trieu Anh Ngoc, Masayoshi Harada, Toshinori Tabata ........................................539

EFFECT OF CLIMATE CHANGE VARIABLES ON THE COASTAL WIND PREDICTION
Heri Sulistiyono, Eko Pradjoko, Syamsidik ...........................................................................................................549

ESTIMATION OF SEDIMENT YIELD AND BENEFIT IN NORTHERN PART OF THAILAND USING REMOTE SENSING DATA
Prem Rangsiwanichpong, So Kazama ..................................................................................................................559

METHODS FOR PREDICTING VERTICAL VELOCITY DISTRIBUTIONS IN OPEN CHANNEL FLOWS WITH SUBMERGED RIGID VEGETATION
Xiaonan Tang ..................................................................................................................................................567

FLOW RESISTANCE AND TURBULENT STRUCTURE IN OPEN CHANNEL WITH SUBMERGED PERMEABLE AND IMPERMEABLE SIDE-CAVITIES
Takayuki Tanaka, Terunori Ohmoto, Kota Saw .......................................................................................................577

ASSESSMENT OF POTENTIAL BRACKISH WATER FOR AGRICULTURAL USE IN THE UTILIZED AQUIFERS IN KUWAIT
Amjad Aliewi, Han’a Burezq ..............................................................................................................................583

EVALUATION OF CIBULAKAN SPRING FLOW DISCHARGE FOR THE DEVELOPMENT OF BANDUNG DISTRICT DRINKING WATER SUPPLY SYSTEM
Mariana Marselina, Arwin Sabar ..........................................................................................................................591

CANOPY SATURATION AND TROUGHFALL FOR ACACIELLA ANGUSTISSIMA, ARTOCRIPUS HETEROPHYLLUS, PINUS MERKUSII AND ANTHOCERES CADAMBA RELATED TO RAINFALL INTENSITY
Ahmad Reza Kasury, Joko Sujono, Rachmad Jayadi ............................................................................................599

ESTIMATION OF HIGH TEMPORAL RESOLUTION RIVER DISCHARGES INTO SINGAPORE COASTAL WATERS FOR OPERATIONAL FORECAST
Serene Hui Xin Tay, Mengyu Wang, Vladan Babovic, Seng Keat Ooi ................................................................509

ESTIMATION OF ENVIRONMENTAL FLOWS USING PHYSICAL HABITAT SIMULATIONS
Seung Ki Kim, Sung-Uk Choi ...............................................................................................................................617

WATER QUANTITY AND QUALITY MATHEMATICAL MODEL OF RIVER NETWORK IN THE MIDDLE REACH OF HUAIHE RIVER
Jin Ni, Bangyi Yu ..............................................................................................................................................625

ASSESSMENT OF RAINWATER HARVESTING AS AN ALTERNATIVE WATER SOURCE FOR RURAL INDONESIA
Raden Ajeng Koesoemo Roekni, Lloyd Hc Chua, Kanagaratnam Baskaran ..........................................................629

APPLICABILITY OF NONLINEAR FILTERING TO WATER-LEVEL FORECASTING OF SMALL- AND MEDIUM-SIZED RIVERS
Kohei Tanaka, Masayuki Sugura, Hiroki Tsujikura .................................................................................................639

SUBTHEME 4: IRRIGATION, WATER SUPPLY AND SANITATION
SHAPE FACTORS AND INSITU FIELD PERMEABILITY FOR ARTIFICIAL RECHARGE
Azizah Rachmawati, Suhardjono, Ussy Andawayanti, Pitojo Tri Juwono ............................................................651
ON SEDIMENTATION CHARACTERISTICS OF POWDERED ACTIVATED CARBON POROUS PARTICLES IN STILL WATER  
Shehua Huang, Kun Chen, Yang Tian, Tianyu Sui ............................................................... 659

HYDROLOGICAL DROUGHT INTENSITY AND STRESS IN THE PEMALI-COMAL RIVER BASIN  
Waluyo Hatmoko, Roberus Wahyudi Triwoke, Iwan Kridasantaus Hadihardaja ........................................ 667

IMPROVING THE PERFORMANCE OF TIDAL IRRIGATION THROUGH THE WATER MANAGEMENT, (STUDY CASE GANDUS PALEMBANG, SOUTH SUMATRA)  
Haryo Istianto, Ronny Bernard, F.X. Suryadi ................................................................. 677

STUDY ON SUSTAINABLE METHODOLOGY FOR WASTEWATER TREATMENT IN MAINLINE-DISCONNECTED GER AREAS OF ULAANBAATAR CITY  
Ariuntuya Byambadorj, Han Soo Lee ........................................................................... 687

EVALUATION AND DEVELOPMENT OF THE DISTRIBUTION NETWORK ON PIPED DRINKING WATER OF LENDAH SYSTEM AT PDAM (REGIONAL WATER SUPPLY COMPANY) OF KULONPROGO REGENCY  
Angga Budi Kusuma, Radianta Triatmadja, Intan Supraba .......................................................... 695

CALIBRATION OF IRRIGATION GATES IN PUNGGUR UTARA IRRIGATION AREA  
Dyah Indriana Kusumastuti, Dwi Jokowinarno ........................................................................ 703

DESIGN OF A WATER SUPPLY TREATMENT DEVICE FOR RURAL COMMUNITIES  
Sarah Andrew, Shea Patten-Wise, Dr Gregory De Costa ......................................................... 711

WATER AVAILABILITY IN THE PRIMARY CANAL OF TERANTANG TIDAL IRRIGATION UNITS, BARITO KUALA SOUTH KALIMANTAN PROVINCE  
Maya Amalia Achydi, Koichiro Ohgushi, Atika Wulandari ............................................................ 719

VOLUME 2

SUBTHEME 5: WATER RESOURCES

DO SAG-CURVE MODELING USING HEC-RAS V.4.1.0: CASE STUDY SURABAYA RIVER  
Christian Alfonsus Liguori, Doddi Yudianto, and Guan Yiqing ..................................................... 727

GENERATING A PLAUSIBLE FUTURE OF SALINITY INTRUSION DUE TO MORA-LIKE CYCLONE ALONG THE COAST OF BANGLADESH  
Tansir Zaman Asik, A.S.M. Alauddin Al Azad, Rabeya Akter, Mohiuddin Sakib, Anisul Haque, Munsur Rahman ................................................................. 737

THE ANALYSIS OF WATER BALANCE FOR SEMIARID REGION IN SABU RAJUA – EAST NUSA TENGGARA  
Denik Sri Krisnayanti, I Made Udiana, Oliver Kevin Ndoen .................................................................. 747

IMPACT ASSESSMENT OF CLIMATE CHANGE ON OPERATION OF RESERVOIR SYSTEMS FOR WATER USE IN JAPAN  
Daisuke Nohara, Shunsuke Suzuki, Tomoharu Hori, Yoshinobu Sato .................................................. 755

THE EFFECT OF THE LENGTH OF RAINFALL DATA TO IDF CURVE  
Dwi Jokowinarno, Dyah Indriana Kusumastuti ............................................................................. 765

ESTIMATION OF SOIL INFILTRATION AND GROUNDWATER RECHARGE IN SUKHUMA DISTRICT OF SOUTHERN LAOS  
Sinxay Vongphachanh, William Milne-Home, James E Ball, Ashim Das Gupta, Paul Pavelic ........................................ 773

BIOCHEMICAL CHARACTERISTICS OF WATER QUALITY DYNAMICS NEAR THE BOTTOM SEDIMENT UNDER ANAEROBIC STATE IN THE ORGANICALLY POLLUTED RESERVOIR  
Masayoshi Harada, Tran Tuan Thach, Kazuaki Hiramatsu, Toshinori Tabata ........................................ 783

LINKING CLIMATE CHANGE TO URBAN STORM DRAINAGE SYSTEMS DESIGN: RECENT ADVANCES IN MODELING OF EXTREME RAINFALL PROCESSES  
Van-Thanh-Van Nguyen, Truong-Huy Nguyen .............................................................................. 793
