CONTENTS

C6344/154	Towards implementing condition based maintenance policy for rolling stock critical system <i>B M Alkali, F Dinmohammadi, Glasgow Caledonian University, UK; A Ramani, First TransPeninne Express, UK</i>	1
C6344/093	Assessment of the short and long term behaviour of the track on railway transition zones <i>C Alves Ribeiro, R Calçada, University of Porto, Portugal</i>	13
C6344/141	The aerodynamics of freight trains <i>C J Baker, D Soper, D Flynn, University of Birmingham, UK</i>	25
C6344/142	Ballast flight under high-speed trains – aerodynamic and geotechnical studies <i>C J Baker, D Soper, D Flynn, A Jackson, University of Birmingham, UK; D R Milne, L Le Pen, J Zhu, Z Hu, W Powrie, University of Southampton, UK</i>	33
C6344/086	The technical challenges in designing a telematics architecture for the system-wide monitoring of train and infrastructure assets <i>R Beggs, L Fornasiero, M Bussi, Comtest Wireless International Limited, UK</i>	41
C6344/163	Maximising vehicle size and compatibility using Kinematic Envelope (KE) template and dynamic gauges, a case study of the new dynamic passenger gauges <i>D Buckley, Balfour Beatty Rail, UK</i>	51
C6344/186	Identifying the factors influencing track degradation on the UK rail network <i>S Clarke, D Prescott, University of Nottingham, UK</i>	67
C6344/161	Developing rolling stock fault analysis and key performance indicators using statistical modelling <i>S Coates, N Wray, G Dutton, Angel Trains Ltd, UK</i>	77
C6344/181	Assessing the impact of risk on gauging practice <i>C Davenport, N Barker, C Lewis, Balfour Beatty Rail, UK</i>	87
C6344/147	S ² PTC: A new track circuit based on software without electrical or mechanical isolating components <i>J de Reffye, PI-RAMSES Consulting, France; M Antoni, Union Internationale des Chemins de fer, France</i>	93
C6344/178	A novel risk-based inspection planning model with condition monitoring data: case study of rolling stock pantographs <i>F Dinmohammadi, B M Alkali, Glasgow Caledonian University, UK; M Shafiee, Cranfield University, UK</i>	109

C6344/182	Optimising strategy selection for the management of railway assets <i>C Fecarotti, J Andrews, The University of Nottingham, UK</i>	121
C6344/171	Development of an assistance system for secured shunting operations <i>J Franzen, B Kuhlenkoetter, Ruhr University Bochum, Germany; U Pinders, W Schreiber, Westfälische Lokomotiv-Fabrik Reuschling GmbH & Co. KG, Germany</i>	133
C6344/151	Applicability of video gauge for the assessment of track displacement <i>M Gallou, M Frost, A El-Hamalawi, Loughborough University, UK; B Temple, C Hardwick, LB Foster Rail Technologies, UK</i>	141
C6344/130	Contribution of artificial intelligence to the assessment of rail safety <i>H Hadj-Mabrouk, IFSTTAR, France</i>	149
C6344/146	Anti-seismic effects of viscous dampers on simply supported girder bridges with high piers on the Sichuan-Tibet Railway <i>Z Han, Z Chen, W Zhai, Southwest Jiaotong University, China</i>	161
C6344/149	Pilot for standing on both sides of escalators <i>C Harrison, N Kukadia, P Stoneman, G Dyer, Transport for London, UK</i>	169
C6344/177	Maximising passenger satisfaction through optimised train movements <i>B Hickish, D I Fletcher, R F Harrison, University of Sheffield, UK</i>	181
C6344/175	Docklands Light Railway door guide improvement project – reliability and sustainability category <i>M Jani, D Collins, Keolis Amey Dockland Ltd, UK</i>	193
C6344/183	Technology development strategies in a rail system problem context <i>D Johnson, R Holbrow, Network Rail, UK</i>	201
C6344/144	A systems engineering framework for railway control and safety systems: the mainline challenge <i>K M King, WSP Parsons Brinckerhoff and University of Birmingham, UK; C Roberts, F Schmid, University of Birmingham, UK</i>	211
C6344/187	A study into the long-term development of vehicle dynamic parameters of wheel/rail contact geometry <i>T Kolbe, R Kratochwille, T Tegtmeier, Deutsche Bahn AG, DB Systemtechnik GmbH, Germany</i>	219

C6344/115	Inter-disciplinary approach for simulation of railway vehicle driveline <i>N Kuka, C Ariaudo, R Verardi, ALSTOM, Italy; A Dolcini, ALSTOM Transport, Italy</i>	235
C6344/188	The effect of sanders in improving train braking performance when adhesion is low <i>A Lawton, Technical Adviser to Rail Delivery Group, UK</i>	243
C6344/152	A signal-based fault detection method for bolster springs on heavy haul wagons <i>C Li, Southwest Jiaotong University, China and CQUniversity, Australia; S Luo, Southwest Jiaotong University, China; C Cole, M Spiryagin, Y Sun, CQUniversity, Australia</i>	253
C6344/164	AeroLiner3000 – Double-decker high speed train for GB <i>G Malzacher, J König, J Winter, German Aerospace Center (DLR), Germany; A Vogler, Andreas Vogler Studio (AVS), Germany</i>	269
C6344/158	Bullhead trackform into the 21st century: an Underground challenge <i>P Molyneux-Berry, S Neves, M Rahman, University of Huddersfield - Institute of Railway Research (IRR), UK; J White, London Underground (LU), UK</i>	277
C6344/150	Novel expansion-splitting energy absorber and performance comparison to expansion, splitting and progressive buckling tubes <i>C Moreno, T Williams, Oleo International, UK; R Beaumont, University of Warwick, UK</i>	287
C6344/179	Railway electrification: considerations for the improvement of design of short neutral sections <i>J C Morris, Newcastle University and WSP Parsons Brinckerhoff Ltd, UK; M Robinson, R Palacin, Newcastle University, UK</i>	297
C6344/190	Development of new measurement principle for truly portable track geometry recording trolley <i>Y Naganuma, T Yada, Central Japan Railway Company, Japan</i>	307
C6344/176	Simulation of interchanges for passenger benefits and rolling stock optimisation <i>S Nightingale, L Cherryman, P Pontes, P Clifford, Mott MacDonald, UK</i>	317
C6344/184	Development of an adaptive top-of-rail friction modification system <i>M Omasta, R Galas, J Knappek, M Hartl, I Krupka, Brno University of Technology, Czech Republic</i>	325
C6344/189	A journey into railway digitisation <i>H J Parkinson, Digital Rail Ltd, UK; G Bamford, NTTX Advisory Limited, UK</i>	333

C6344/153	Towards inclusion of the freight rail system in the industrial internet of things - Wagon 4.0 <i>R Pfaff, B D Schmidt, M Enning, FH Aachen University of Applied Sciences, Germany</i>	341
C6344/168	How London Underground's built environment affects customer satisfaction <i>I Pring, Transport for London, UK</i>	351
C6344/137	LoCoFlyER - low cost flywheels for efficient railways <i>K R Pullen, M Read, City University of London, UK; R Sellick, TRL Ltd, UK; A Fenocchi, S Etemad, Dynamic Boosting Systems Ltd, UK</i>	361
C6344/170	Computer modeling the dynamics and strength of a rail tank car with liquid cargo <i>A Putsiata, I Arkhutsik, Belarusian State University of Transport, Belarus</i>	371
C6344/140	Connected and Automated road Vehicles travelling towards rail systems: Challenges and opportunities of integrated transport <i>N Reed, R Sellick, TRL, UK</i>	379
C6344/167	Development of innovative capacity solutions for the Great Western Main Line <i>J C Ross, Network Rail, UK</i>	389
C6344/165	Design, construction, deployment and testing of a full-scale Repoint Light track switch (I) <i>M L Sarmiento-Carnevali, T J Harrison, S Dutta, S D Bemment, C P Ward, R Dixon, Loughborough University, UK</i>	409
C6344/180	Minimisation of train traction energy consumption under cruising speed and coast position control with genetic algorithm <i>B Sarsembayev, Brunel University London, UK and The L.N. Gumilyov Eurasian National University, Kazakhstan; T Kalganova, Brunel University London, UK</i>	417
C6344/156	Application of Kalman filter on train control circuit in order to reduce the shuddering effect during stopping <i>M Sengupta, D Woodland, Ricardo Rail, UK; B Heydecker, University College London, UK</i>	435
C6344/145	Saving weight in railway infrastructure <i>M J Singleton, Startlink Systems Ltd, UK; J A Hutchinson, Feilden and Mawson Llp, UK</i>	447
C6344/135	The use of wheelmotors to provide active steering and guidance for a light rail vehicle <i>J Stow, R M Goodall, University of Huddersfield, Institute of Railway Research, UK; N Cooney, SET Ltd, UK; R Sellick, TRL Ltd, UK</i>	455

C6344/148	A three-dimensional vehicle-track coupled dynamic model based on the Green's function method <i>Y Sun, Y Guo, M Chen, W Zhai, Southwest Jiaotong University, China</i>	463
C6344/173	Modelling of heavy haul train-bridge dynamic interactions and parametric studies using multi-body dynamics approaches <i>Y Q Sun, M Spiryagin, C Cole, Central Queensland University (CQU), Australia</i>	473
C6344/169	Railway bridge fault detection using Bayesian belief network <i>M Vagnoli, R Remenye-Prescott, J Andrews, University of Nottingham, UK</i>	489
C6344/159	Development of novel acoustic emission techniques for monitoring the structural health of cast manganese crossings <i>P Vallely, The University of Birmingham and Network Rail Infrastructure Limited, UK; M Papaelias, Z Huang, S Kaewunruen, The University of Birmingham, UK; S Shi, The University of Birmingham and National Structural Integrity Research Centre, UK; J Davis, Network Rail Infrastructure Limited, UK</i>	497
C6344/155	Social sustainability of HSR-comparative study <i>I Watson, A Ali, A Bayyati, London South Bank University, UK</i>	505
C6344/102	Enhancing freight rail – the freight identification and monitoring system <i>C Williams, SNC-Lavalin Rail & Transit, UK</i>	517
C6344/174	Automotive to rail: can technologies cross the gap? <i>J Winnett, A Iraklis, E M Keating, A McGordon, T Ridler, D J Hughes, University of Warwick (WMG), UK</i>	529
C6344/172	Bridge asset management using petri-nets <i>P Yianni, Amey Strategic Consulting and Technology, UK; L C Neves, D Rama, J Andrews, University of Nottingham, UK; R Dean, Network Rail, UK</i>	539
C6344/157	Fault analysis of the switch and point machine to improve railway reliability <i>N Zhao, L Saade, Z Chen, E Stewart, C Roberts, University of Birmingham, UK; M Yuan, T Zhang, Guangzhou Metro Corporation, P. R. China; J Cai, Guangzhou Electrical and Mechanical Research Institute, P. R. China</i>	549
