2019 13th International Symposium on Medical Information and Communication Technology (ISMICT 2019)

Oslo, Norway
8 – 10 May 2019
Program
2019 13th International Symposium on Medical Information and Communication Technology (ISMICICT)
Poster Session

Activity Recognition Using Smartphone Sensors, Robust Features, and Recurrent Neural Network
Md Zia Uddin (University of Oslo, Norway), Jim Tørresen (University of Oslo, Norway) ........................................ 1

Measurements and Analysis on Dynamic Off-Body Radio Channels at UWB Frequencies
Timo Kumpuniemi (University of Oulu, Finland), Juha-Pekka Mäkelä (University of Oulu, Finland), Matti Hämäläinen (University of Oulu, Finland), Kamya Yekeh Yazdandoost (Aalto University & University of Oulu, Finland), Jari Iinatti (University of Oulu, Finland) .................................................................................................................. 7

Miniaturized Planar Implanted Spiral Antenna Inside the Heart Muscle at MICS Band for Future Leadless Pacemakers
Mehrab Ramzan (TU Dresden, Germany), Xiao Fang (TU Dresden, Germany), Qiong Wang (Dresden University of Technology, Germany), Niels Neumann (Technische Universität Dresden, Germany), Dirk Plettemeier (Dresden University of Technology, Germany) .................................................................................................................. 12

Measurement and Simulation Based Study on UWB Channel Characteristics on the Abdomen Area
Mariella Särestöniemi (Erkki Koiso-Kanttilan katu 1 & Center for Wireless Communication, University of Oulu, Finland), Chaimaâ Kissi (Ibn Tofail University & National School of Applied Sciences (ENSA), Morocco), Carlos Pomalaza Raez (Purdue University, USA), Timo Kumpuniemi (University of Oulu, Finland), Marko Sonkki (University of Oulu, Finland), Sami Myllymäki (University of Oulu, Finland), Matti Hämäläinen (University of Oulu, Finland), Jari Iinatti (University of Oulu, Finland) .................................................................................................................. 16

Impact of the Antenna-Body Distance on the UWB WBAN Channel Characteristics
Mariella Särestöniemi (Erkki Koiso-Kanttilan katu 1 & Center for Wireless Communication, University of Oulu, Finland), Chaimaâ Kissi (Ibn Tofail University & National School of Applied Sciences (ENSA), Morocco), Carlos Pomalaza Raez (Purdue University, USA), Matti Hämäläinen (University of Oulu, Finland), Jari Iinatti (University of Oulu, Finland) .................................................................................................................. 22

Regular Session

RF Field Based Detection of Compartment Syndrome
Kamya Yekeh Yazdandoost (Aalto University & University of Oulu, Finland), Ilkka Laakso (Aalto University, Finland) ........ 28

High-Efficiency Wireless Power Transfer System for Capsule Endoscope
Md Miah (Aalto University & School of Electrical Engineering, Finland), Prasad Jayathurathnaq (Aalto University, Finland), Clemens Icheln (Aalto University & School of Electrical Engineering, Finland), Katsuyuki Haneda (Aalto University, Finland), Sergei Tretjakov (Aalto University, Finland) .................................................................................................................. 32

QuickCareRecord: Efficient Care Recording Application with Location-based Automatic View Transition and Information Complement
Haruka Wada (Nara Institute of Science and Technology, Japan), Zhihua Zhang (Nara Institute of Science and Technology, Japan), Manato Fujimoto (Nara Institute of Science and Technology, Japan), Yutaka Arakawa (Nara Institute of Science and Technology & NAIST, Japan), Keiichi Yasumoto (Nara Institute of Science and Technology, Japan) .................................................................................................................. 37

Influence of Physiological Properties on the Channel Capacity for Ultra Wideband In-Body Communication
Jan-Christoph Brumm (Hamburg University of Technology, Germany), Gerhard Bauch (Hamburg University of Technology, Germany) .................................................................................................................. 43

Individualized Sleep Stage Classification from Cardiorespiratory Features
Miriam Goldammer (Technical University Dresden, Institute of Biomedical Engineering, Germany), Lucas Weber (Technical University Dresden, Germany), Haqen Malbera (TU Dresden & Institute of Biomedical Engineering, Germany), Sebastian Zaunseider (University of Applied Sciences and Arts Dortmund, Germany) .................................................................................................................. 49

Electromagnetic Exposure from a WBAN and External Transmitters
Marta Fernandez Andres (University of the Basque Country, Spain), Ivan Pena Valverde (University of the Basque Country, Spain), David Guerra Pereda (University of the Basque Country, Spain), Unai Gil Abarzua (University of the Basque Country, Spain), Amaia Arrinda (University of the Basque Country, Spain) .................................................................................................................. 55
Where Can Exercisers Sense Heart Rates Accurately and Comfortably on Their Bodies?

Yuzu Kuwahara (Osaka City University, Japan), Takunori Shimazaki (Osaka City University, Japan), Masaya Kimoto (Osaka City University, Japan), Hiroynuki Yomo (Kansai University, Japan), Shinsuke Hara (Osaka City University, Japan) ........................................ 60

Enhancing Surgical Process Modeling for Artificial Intelligence Development in Robotics The SARAS Case Study for Minimally Invasive Procedures

Elettra Oleari (IRCCS Ospedale San Raffaele, Italy), Alice Leporini (IRCCS Ospedale San Raffaele, Italy), Diana Troianiello (IRCCS Ospedale San Raffaele, Italy), Alberto Sanna (IRCCS Ospedale San Raffaele, Italy), Umberto Capitanio (IRCCS Ospedale San Raffaele, Italy), Federico Dehò (IRCCS Ospedale San Raffaele, Italy), Alessandro Larcher (IRCCS Ospedale San Raffaele, Italy), Francesco Montorsi (Università Vita-Salute San Raffaele, Italy), Andrea Salonia (Università Vita-Salute San Raffaele, Italy), Francesco Setti (Università di Verona, Italy), Riccardo Muratore (Università di Verona, Italy) ........................................ 65

Noise Evaluation System for Biosignal Sensors Using Pseudo-Skin and Helmholz Coil

Misaki Inaoka (Osaka University, Japan), Shintaro Izumi (Kobe University, Japan), Shusuke Yoshimoto (Osaka University, Japan), Toshikazu Nezu (Osaka University, Japan), Yuki Noda (Osaka University, Japan), Teppei Araki (Osaka University, Japan), Takafumi Uemura (unknown), Tsuyoshi Sekitani (Osaka University, Japan) ......................... 71

Subcutaneous Accelerometer-Based Monitoring of Respiration - A Pre-Clinical Exploration

Rafael Cordero Alvarez (Universite Paris Sud & MicroPort CRM, France), Delphine Feuerstein (MicroPort CRM, France), Pierre-Yves Joubert (University of Paris Sud, France) ........................................ 75

Multi-hop Vital Data Collection with Autonomous Channel Selection from a Large Number of Exercisers

Atsushi Niino (Kansai University, Japan), Hiroyuki Yomo (Kansai University, Japan), Takuma Hamagami (Ok Electric Industry Co., Ltd., Japan), Kentaro Yanaqihara (Ok Electric Industry Co., Ltd., Japan), Yasutaka Kawamoto (Ok Electric Industry Co., Ltd. & Japan), Shinsuke Hara (Osaka City University, Japan), Takashi Kawabata (Kansai University, Japan) ........................................ 81

Low-UWB Antennas in Vicinity to Human Body

Chaimaâ Kissi ( Ibn Tofail University & National School of Applied Sciences (ENSA), Morocco), Mariella Sârestöniemi (Erkki Koiso-Kanttilan katu 1 & Center for Wireless Communication, University of Oulu, Finland), Timo Kumpuniemi (University of Oulu, Finland), Marko Sonkki (University of Oulu, Finland), Sami Myllvmäki (University of Oulu, Finland), Mohamed Srifi (Abdelmalek Essaadi University, Morocco), Carlos Pomalaza Raez (Purdue University, USA) .............. 86

Low-UWB Receiving Antenna for WCE Localization

Chaimaâ Kissi ( Ibn Tofail University & National School of Applied Sciences (ENSA), Morocco), Mariella Sârestöniemi (Erkki Koiso-Kanttilan katu 1 & Center for Wireless Communication, University of Oulu, Finland), Timo Kumpuniemi (University of Oulu, Finland), Marko Sonkki (University of Oulu, Finland), Sami Myllvmäki (University of Oulu, Finland), Mohamed Srifi (Abdelmalek Essaadi University, Morocco), Carlos Pomalaza Raez (Purdue University, USA) .............. 92

Patient Stress Estimation for Using Deep Learning with RRI Data Sensed by WBAN

Yukihiro Kinjo (Yokohama National University, Japan), Yoshitomo Sakuma (Yokohama National University, Japan), Takumi Kobayashi (Yokohama National University, Japan), Chika Sugimoto (Yokohama National University, Japan), Ryuji Kohno (Yokohama National University & University of Oulu, Japan) ........................................ 98

Localization of Implanted Devices Combining TDOA, Particle Filter and Map Mapping with Intestine Modeling

Ayaka Nakamura (Yokohama National University, Japan), Takumi Kobayashi (Yokohama National University, Japan), Chika Sugimoto (Yokohama National University, Japan), Ryuji Kohno (Yokohama National University & University of Oulu, Japan) ........................................ 102

Potentiality of Magnetoelectric Composites for Wireless Power Transmission in Medical Implants

Giulia Rizzo (ValoTec & CNRS - C2N, France), Vincent Loyau (SATIE, Ecole Normale Supérieure Paris-Saclay, France), Ronald Nocua (Université Joseph Fourier, France), Jean Christophe Lourme (ValoTec, France), Elie Lefeuvre (Paris Sud Université, France) ........................................ 106

Current Distribution Analyses of Figure-Eight Coil for an Intergrated Transcutaneous Energy and Information Transmission System for a Totally-Implantable Artificial Heart

Takahiko Yamamoto (Tokyo University of Science, Japan), Takuya Kawai (Tokyo University of Science, Japan), Kohji Koshiji (Tokyo University of Science, Japan) ........................................ 110

Remote Activity Monitoring Using Indirect Sensing Approach in Assisted Living Scenario

Heikki Karvon (University of Oulu, Centre for Wireless Communications, Finland), Arto Matilainen (University of Oulu, Finland), Ville Niemelä (University of Oulu, Finland) ........................................ 114

RSS-Based Secret Key Generation in Wireless In-Body Networks

Muhammad Faheem Awan (Norwegian University of Science and Technology, Norway), Kimmo Kansanen (Norwegian University of Science and Technology, Norway), Sofia Perez-Simbor (Universitat Politècnica de València, Spain), Concepcion Garcia-Pardo (Universitat Politecnica de València & Institute of Telecommunications and Multimedia Applications (ITEAM), Spain), Sergio Castelló-Palacios (Universitat Politècnica de València, Spain), Narcis Cardona (The Polytechnic University of Valencia, Spain) ........................................ 120
Assessing a Novel Diagnostic Medical Device: Pragmatic Route from Lab to Clinic
Melanie Zimmermann (Ovesco Endoscopy AG & University of Tuebingen, Germany), Thomas Gottwald (Ovesco Endoscopy AG & University of Tuebingen, Germany), Marc Schurr (Ovesco Endoscopy AG & Steinbeis University Berlin, Germany), Sebastian Schostek (Ovesco Endoscopy AG, Germany) .......................................................... 126

Neural Response Analysis for Brain-Machine Interfaces
Eline Stenwig (NTNU, Norway), Mladen Veletić (Oslo University Hospital, Norway), Ilangko Balasingham (Norwegian University of Science & Technology & Oslo University Hospital, Norway) .......................................................... 130

Battery-free Wireless Communication for Video Capsule Endoscopy
Reza Noormohammadi (Norwegian University of Science and Technology (NTNU), Norway), Ali Khaleghi (Norwegian University of Science and Technology (NTNU), Norway), Ilangko Balasingham (NTNU, Norway) .......................................................... 136

Protocol for Improved Network Coding Opportunity Discovery for Inter-connected WBAN Multihop Relay Medical Networks
Zilole Simat (Yokohama National University, Japan, Zambia), Chika Sugimoto (Yokohama National University, Japan), Ryuji Kohno (Yokohama National University & University of Oulu, Japan) .......................................................... 141

Monitoring of Respiratory Patterns and Biosignals During Speech from Adults Who Stutter and Do Not Stutter: A Comparative Analysis
Bruno Villegas (Pontificia Universidad Católica del Perú, Peru), Kevin M. Flores (Pontificia Universidad Católica del Perú, Peru), Kevin Pacheco-Barrios (Universidad San Ignacio de Loyola, Peru), Dante Elias (Pontificia Universidad Catolica del Peru, Peru) .......................................................... 146

An Overview of Security Threats, Solutions and Challenges in WBANs for Healthcare
Lorenzo Mucchi (University of Florence, Italy), Sara Jayousi (PIN University of Florence, Italy), Alessio Martinelli (University of Florence, Italy), Stefano Caputo (University of Florence, Italy), Patrizio Marcocci (University of Florence, Italy) .......................................................... 151

Special Session on Artificial Intelligence in Medicine

On the Performance of Hierarchical Temporal Memory Predictions of Medical Streams in Real Time
Noha Ossama El-Ganainy (Norwegian University for Science and Technology NTNU & Faculty of Information Technology and Electrical Engineering, Norway), Ilangko Balasingham (NTNU, Norway), Per Steinar Halvorsen (The Intervention Center, Oslo University Hospital, Norway), Leiv Arne Rosseland (Division of Emergencies and Critical Care, Oslo University Hospital & Institute of Clinical Medicine, University of Oslo, Norway) .......................................................... 157

Automatic Detection of Intestinal Content to Evaluate Visibility in Capsule Endoscopy
Reinier Noorda (Universitat Politècnica de València, Spain), Andrea Nevarez (Hospital Universitari i Politècnic La Fe, Spain), Adrián Colomer (Universitat Politècnica de València, Spain), Valery Naranjo (Polytechnic University of Valencia, Spain), Vicente Pons (Hospital Universitari i Politècnic La Fe, Spain) .......................................................... 163

Unsupervised Preprocessing to Improve Generalisation for Medical Image Classification
Mathias Kirkerød (University of Oslo, Norway), Rune Borlø (Simula Research Laboratory, Norway), Vair Thambawita (University of Peradeniya, Sri Lanka), Steven Hicks (Simula Research Laboratory, Norway), Michael Alexander Riegler (Simula Research Laboratory, Norway), Pål Halvorsen (Simula Research Laboratory & Department of Informatics, University of Oslo, Norway) .......................................................... 169

Automatic Hyperparameter Optimization for Transfer Learning on Medical Image Datasets Using Bayesian Optimization
Rune Borlø (Simula Research Laboratory, Norway), Håkon K Stensland (Simula Research Laboratory & University of Oslo, Norway), Michael Alexander Riegler (Simula Research Laboratory, Norway), Pål Halvorsen (Simula Research Laboratory & Department of Informatics, University of Oslo, Norway) .......................................................... 175

Polyp Detection and Segmentation Using Mask R-CNN: Does a Deeper Feature Extractor CNN Always Perform Better?
Hemin Ali Qadir (University of Oslo & OmniVision Technologies Norway As, Norway), Younghak Shin (Oslo University Hospital, Norway), Johannes Solhusvik (University of Oslo & OmniVision Technologies Norway As, Norway), Jacob Bergslund (Oslo University Hospital, Norway), Lars Aabakken (University of Oslo, Norway), Ilangko Balasingham (Norwegian University of Science and Technology, Norway) .......................................................... 181

Special Session on Cybersecurity in Healthcare

Key Management Through Delegation for LoRaWAN Based Healthcare Monitoring Systems
Talins Dünmez (University of Turku, Finland), Ethiopia Nigussie (University of Turku, Finland) .......................................................... 187

Elahe Fazeldehkordi (University of Oslo, Norway), Olaf Owe (Oslo, Norway), Josef Noll (University of Oslo, Norway) .......................................................... 193
Special Session on Cardiac Monitoring using Video Plethysmography

**Accurate Hemodynamic Sensing Using Video Plethysmography with High Quality Cameras**
Jairo Hernandez Guzman (Rochester Institute of Technology, USA), Jean Philippe Couderc (University of Rochester Medical Center, USA), Gill R Tsouri (Rochester Institute of Technology, USA) ................................................................. 222

**Probabilistic Signal Quality Metric for Reduced Complexity Unsupervised Remote Photoplethysmography**
Yannick Benezeth (Université Bourgogne Franche-Comté, France), Serge Bobbia (Université Bourgogne Franche-Comté, France), Keisuke Nakamura (Honda Research Institute Japan Co., Ltd., Japan), Randy Gomez (Honda Research Institute Japan Co., Ltd., Japan), Julien Dubois (Université Bourgogne Franche Comte, France) ................................................................. 228

**Contactless Blood Perfusion Assessment of the Free Flap in Breast Reconstruction Surgery**
Alma Secerbegovic (University of Tuzla, Bosnia and Herzegovina), Haris Mesic (Oslo University Hospital, Norway), Jacob Bergsland (Oslo University Hospital, Norway), Ilango Balasingham (Norwegian University of Science and Technology, Norway) ........................................................................... 233

Special Session on Wireless Body Area Networks: Radio Channel Modeling, Electromagnetic Exposure, and Energy Efficiency

**Initial Delay Domain UWB Channel Characterization for In-Body Area Networks**
Sofia Perez-Simbor (Universitat Politècnica de València, Spain), Concepcion Garcia-Pardo (Universitat Politècnica de València & Institute of Telecommunications and Multimedia Applications (iTEAM), Spain), Narcis Cardona (The Polytechnic University of Valencia, Spain) ........................................................................... 237

**Analysis of the Localization Error for Capsule Endoscopy Applications at UWB Frequencies**
Martina Barbi (Instituto de Telecomunicaciones y Aplicaciones Multimedia (iTEAM), Spain), Sofia Perez-Simbor (Universitat Politècnica de València, Spain), Concepcion Garcia-Pardo (Universitat Politècnica de València & Institute of Telecommunications and Multimedia Applications (iTEAM), Spain), Narcis Cardona (The Polytechnic University of Valencia, Spain) ........................................................................... 242

**Experimental In-Body to On-Body and In-Body to In-Body Path Loss Models of Planar Elliptical Ring Implanted Antenna in the Ultra-Wide-Band**
Xiao Fang (TU Dresden, Germany), Mehrab Ramzan (TU Dresden, Germany), Qiong Wan (Dresden University of Technology, Germany), Niels Neumann (Technische Universität Dresden, Germany), Concepcion Garcia-Pardo (Universitat Politècnica de València & Institute of Telecommunications and Multimedia Applications (iTEAM), Spain), Narcis Cardona (The Polytechnic University of Valencia, Spain), Dirk Plettemeier (Dresden University of Technology, Germany) ........................................................................... 248

**Exposure and Neuronal Excitation by Wireless Power Transfer for Auricular Vagus Nerve Stimulation**
Tom Van de Steene (Ghent University & IMEC, Belgium), Emmeric Tanghe (Ghent University, Belgium), Stefan Kampusch (Vienna University of Technology, Austria), Babak Babiri Razlighi (Vienna University of Technology, Austria), Jozsef Constantin Szeles (University of Vienna, Austria), Eugenijus Kaniusas (Vienna University of Technology, Austria), Luc Martens (Ghent University, Belgium), Wout Joseph (Ghent University/IMEC, Belgium) ................................................................. 253

**Characterization of Off-Body Area Network Channels During Walking**
Marshed Mohamed (Norwegian University of Science and Technology, Norway), Wout Joseph (Ghent University/IMEC, Belgium), Gunter Vermeeren (Ghent University, Belgium), Emmeric Tanghe (Ghent University, Belgium), Michael Cheffena (Norwegian University of Science and Technology, Norway) ........................................................................... 258

**Feasability of On-Body Backscattering in the UHF-RFID Band Using Screen-Printed Dipole Antennas**
Arno Thielens (University of California, Berkeley & Berkeley Wireless Research Center, USA), Carol Baumbauer (University of California, Berkeley, USA), Matthew Anderson (University of California, Berkeley, USA), Jonathan Ting (University of California, Berkeley, USA), Ana Arias (University of California, Berkeley, USA), Jan M. Rabaey (University of California, Berkeley, USA) ........................................................................... 262
Ensuring Robust and Tissue-Independent Operation of Implantable, Ingestible, and Injectable Antennas
Denys Nikolayev (École Polytechnique Fédérale de Lausanne, Switzerland), Wout Joseph (Ghent University/IMEC, Belgium), Maxim Zhadobov (University of RENNES 1, France), Ronan Sauleau (University of Rennes 1, France), Luc Martens (Ghent University - imec, Belgium)
