International Conference on Information Technologies in Business and Industry (ITBI-2019)

Journal of Physics: Conference Series
Volume 1333

Novosibirsk, Russia
18 - 20 February 2019

Part 1 of 2

Editors:

Nikita Martyushev
Boris Malozemov
Vladimir Faerman

ISBN: 978-1-5108-9989-6
ISSN: 1742-6588
# TABLE OF CONTENTS

# 1 – MICROPROCESSOR DEVICES, TELECOMMUNICATION AND NETWORKING

SIMULATION OF THE ABSOLUTE PERMENABILITY BASED ON THE CAPILLARY PRESSURE CURVES USING THE DUMBBELL MODEL ................................................................. 123
R T Akhmetov, V V Makhmetsin, I S Kuleshova

NUMERICAL SIMULATION AND EXPERIMENTAL INVESTIGATION OF HEAT TRANSFER AND FLOW STRUCTURES AROUND HEATED SPHERICAL BLUFF BODIES ........................................................................................................... 130
A H Abed, S E Shichkeln, V M Pakhalov

ALGORITHM OF INFORMATIVE INDICATORS SYSTEM FORMATION FOR DEVELOPMENT OF BUSINESS MANAGEMENT TOOLS .......................................................................... 136
N V Shulanov, Z A Kapyvsk, A A Aletdinov

TIME SERIES PREDICTION USING THE ADAPTIVE RESONANCE THEORY ALGORITHM ART-2 .................................................................................................................. 141

ANALYSIS OF URBAN TERRITORY IN TERMS OF ACCESSIBILITY TO SOCIAL OBJECTS ................................................................. 147
T I Balzakhakova, E S Brizhataya

NUMERICAL SIMULATION OF OIL FORMATION WITH REGULATED DISTURBANCES. OIL RECOVERY QUALITY SIMULATION ........................................................................... 153
S A Batova, V E Andreev, V M Lobankov, V Sh Makhmetshin

NUMERICAL SIMULATION OF THE OIL RESERVOIR WITH REGULATED DISTURBANCES. OIL RECOVERY STABILITY SIMULATION ........................................................................... 158
S A Batova, V E Andreev, V M Lobankov, V Sh Makhmetshin

HYBRID METHOD FOR PREDICTION OF USERS’ INFORMATION BEHAVIOR IN THE INTERNET BASED ON BIOINSPIRED SEARCH ......................................................................... 163
V Bova, Yu Kravchenko, S Rodzin, E Kaliy

DYNAMIC SIMULATION OF CALCULATING THE PURCHASE OF EQUIPMENT ON CREDIT .................................................................................................................. 170
A A Boyko, V V Kukartsev, V S Tanchenkov, V A Kukartsev, E A Chshan, A S Mikhailov

EXPERIMENTAL STUDY AND EVALUATION OF PARAMETERS OF M¹ VEHICLE BRAKING
PROCESS ........................................................................................................................................ 176
A S Afanasiev, N V Chudakova

COMPUTER SIMULATION OF SUBLAYER TEMPERATURE MODE DURING DEPOSITION OF DIAMOND COATINGS USING GAS-PLASMA METHOD ........................................................................... 183
I M Daudov, I V Khasambiev, S A Martynov, A A Luchaninov, I K Khadzhieva

NEW STATISTICAL METHOD FOR GENERATING SEQUENCES OF PSEUDO-RANDOM NUMBERS .................................................................................................................. 189
M A Denisov, E A Chzhan, A A Korneeva, V V Kukartsev, V S Tanchenkov

GRAPH ISOMORPHISM RECOGNITION USING SCHEME MATRICES .................................................................................................................. 196
M Kh Dudo

SIMULATION OF FORMATION FLUID WITHDRAWAL HYDRODYNAMICS USING A DOWNHOLE JET PUMP WHEN STUDYING THE PRODUCTIVE FORMATION WHILE WELL DRILLING .................................................................................................................. 201
F I Ermolenko, T V Minnivaliev

ASPECTS OF STATISTICAL QUALITY CONTROL OF PRODUCTS: CHOICE OF CRITERIA FOR UNIFORMITY OF DISPERSIONS .................................................................................................................. 211
A V Faddeev, L A Landman

HYBRID ALGORITHMS OF THE PERSON IDENTIFICATION BY FACE IMAGE .................................................................................................................. 215
Sh Kh Fazlov, N M Mirzaev, S S Radjabov, G R Mirzaeva

STATISTICAL APPROACH TO BUILDING A MODEL OF RECOGNITION OPERATORS UNDER CONDITIONS OF HIGH DIMENSIONALITY OF A FEATURE SPACE .................................................................................................................. 222
Sh Kh Fazlov, R A Latifullaev, N M Mirzaev, A Sh Makhmadiev

MATHEMATICAL MODEL OF RED SLUDGE SEDIMENTATION IN SINGLE-LEVEL CIRCULAR THICKENER .................................................................................................................. 229
E R Fedorova, E K Kanavec, Yu K Kiryakina

RED MUD THICKENER STATISTICAL MODEL IN MATLAB SYSTEM IDENTIFICATION TOOLBOX .................................................................................................................. 234
E R Fedorova, M E Trifonova, O K Mansurova

THE OPTIMAL ESTIMATION OF PARAMETERS OF MODELS OF CONTROLLED STOCHASTIC SYSTEMS BASED ON THE EXPERIMENT DESIGN .................................................................................................................. 240
V I Denisov, V M Chubich, E V Filippova

EVALUATION OF COMPONENTS INFLUENCE OF FILLERS IN BUILDING MATERIALS ON THEIR PHYSICAL CHARACTERISTICS BY MEANS OF COMPUTER DATA ANALYSIS .................................................................................................................. 247
A A Garashchenko
ONTOLOGICAL APPROACH OF DESIGNING A MULTI-MODEL OF RIVER CHANNEL FOR TIMBER TRANSPORTATION AND CONDITIONS ON VEHICULAR SPEED

MATHEMATICAL MODELS TO DETERMINE THE INFLUENCE OF ROAD

AIRCRAFT ASSIGNMENTS

THE DYNAMIC PROGRAMMING ALGORITHM FOR MANAGEMENT OF REAL-TIME

APPLICATION OF THE METHOD OF LARGE DEVIATIONS ANALYSIS FOR NONLINEAR SYSTEM

PARAMETRIC ALGORITHM OF OMISSIONS FILLING IN STOCHASTIC DATA

DIFFERENTIAL-DIFFERENCE METHOD TO SOLVE PROBLEMS OF HYDRODYNAMICS

NON-PARAMETRIC ALGORITHM OF OMISSIONS FILLING IN STOCHASTIC DATA

TRANSIENT ANALYSIS OF QUEUEING SYSTEM WITH TWO HETEROGENEOUS SERVERS

THE DYNAMIC PROGRAMMING ALGORITHM FOR MANAGEMENT OF REAL-TIME

AIRCRAFT ASSIGNMENTS

Yu A Kravchenko, O Kursitys, D Yu Kravchenko
THE TASK OF SETTING THE PARAMETERS OF METAHEURISTIC OPTIMIZATION ALGORITHMS .......................................................... 387
N M Lugovaya, A S Mikhalev, V Y Kukartsev, Y S Tsynchenko, A O Baranov, E A Chzhan HYBRID METRIC TO REDUCE LABOUR COSTS IN ASSESSING THE COMPLEXITY OF THE PROGRAMS .......................................................... 393
V Y Kukartsev, Y S Tsynchenko, A A Boyko, M A Denisov, V A Kukartsev, E A Chzhan TIME SERIES FORECASTING METHOD BASED ON GENETIC ALGORITHM FOR PREDICTING THE CONDITIONS OF TECHNICAL SYSTEMS .......................................................... 398
V M Kur'evich, T G Kaplunov SIMULATION TECHNOLOGICAL PROCESS OF REPAIR UNITS OF RAILWAY STOCK WITH ARENA .................................................................................................................. 405
A V Kutsyshkin, T B Bylova, A V Shashok ASSESSMENT AND DATA ANALYSIS OF BENEFICIAL IMPLEMENTATION OF COGENERATION MODULES AT MINING ENTERPRISES TO MINIMIZE NEGATIVE INFLUENCE ON THE ENVIRONMENT .......................................................... 412
P A Kaznetsov, B N Abrinovich, Yu A Sychev, D Z Makminova THE MATHEMATICAL MODELLING OF THE LAND RESOURCES MASS EVALUATION IN AGRICULTURE .................................................................................................................. 419
V A Pavlova, M A Salin, O Yu Lepikhina THE STUDY OF THE LOGICAL MODE OF FUNCTION CHOICE OF DIGITAL PROTECTION ON THE RAILWAY CONTROL .................................................................................................. 425
S M Kaznetsov, E A Dmitrieva, B R Avetisyan, S V Markova, K R Avetisyan RESEARCH ALGORITHMS FOR THE ANALYSIS OF TRANSIENT'S TRACTION DC NETWORKS .................................................................................................................. 430
E V Malozymov, K Yu Zhigalov, A I Alchinyov, N A Proskuryakov A MULTI-SCALE DISCONTINUOUS GALERKIN METHOD FOR MATHEMATICAL MODELING OF HEAT CONDUCTION PROCESSES WITH PHASE TRANSITIONS IN HETEROGENEOUS MEDIA ........................................................................................................ 437
S I Markov, E P Shurina, N B Itkina DEVELOPMENT AND IDENTIFICATION OF A MATHEMATICAL MODEL OF THE PROCESS OF CONTINUOUS AUTOCLAVE DESORPTION OF NOBLE METALS IN MOVING-BED APPARATUS .................................................................................................................. 443
V V Elshin, S A Melnik MODELING OF A SOLAR RADIATION FLOW ON AN INCLINED ARBITRARILY ORIENTED SURFACE .................................................................................................................. 448
L G Musta, G N Zhurov, V V Belyaev A STUDY OF DECISION TREE APPLICATION IN THE PROBLEM OF ACCOUNTING FOR NON-INSURED PERIODS OF A PENSIONER .................................................................................................................. 454
L V Naykhanova, A A Bulaev, N N Avstereva, I V Naykhanova, N B Napataheva SOLUTION OF TASK ON THE MINIMUM COST DATA FLOW BASED ON BIONIC ALGORITHM .................................................................................................................. 459
A Yu Pologun, O A Parchina, D D Fugarov, A A Golovanov, O V Smirnova APPLICATION OF BIONIC AND IMMUNE ALGORITHMS FOR THE SOLUTION OF AMBIGUOUS PROBLEMS OF TRANSPORTATION ROUTING .................................................................................................................. 465
A Yu Pologun, O A Parchina, D D Fugarov, E Yu Gerasimenko, T P Skakanova FORECASTING A SHARP CHANGE IN TRAFFIC INTENSITY BY ANALYSIS OF THE THIRD DERIVATIVE OF GROWTH FUNCTION OF INCOMING REQUESTS .................................................................................................................. 471
V Y Goichman, A K Levakov, N A Sokolov, M V Nikolaev COMPARATIVE ANALYSIS OF MODELLING METHODS OF THE TUNNEL CONSTRUCTION HARMFUL EFFECT .................................................................................................................. 476
S U Novozhenin, K A Bogdanova, A K Kemple The USE OF A COMBINED SCHEME OF MATHEMATICAL MODELING FOR THE CONTINUOUS HEATING FURNACE OF METALLURGICAL PRODUCTION .................................................................................................................. 481
K V Osintsev, Iu S Prikhodko A SIMPLE SEMI-MARKOV MODEL OF FUNCTIONING OF AGRICULTURAL CLEANING AND TRANSPORT SYSTEM .................................................................................................................. 485
N I Ovchinnikova, A V Kosareva, V V Bonnet, E V Eltochkina MODEL OF THE TRANSUDER BASED ON MURALI-LAKSHMANAN-CHUA NON-AUTONOMOUS CHAOTIC OSCILLATOR FOR DISCRETE SENSORS INTENDED FOR MONITORING PRODUCTION PROCESSES .................................................................................................................. 491
T V Patrusheva
STUDY OF THE RELATIONSHIP BETWEEN TIME AND TRAFFIC FLOW ON MOTORWAYS ............................................ 497
E V Pechatnova, V N Kuznetsov

COMPARATIVE EVALUATION OF THE EFFECTIVENESS OF THE LASER SCANNING AND
AERIAL PHOTOGRAPHY SYSTEMS USING UNMANNED AERIAL VEHICLES ................................................. 502
A V Chepyzhova, E A Pradina, O Yu Lepikhina

ANALYSIS OF MACHINE LEARNING METHODS TO IMPROVE EFFICIENCY OF BIG DATA
PROCESSING IN INDUSTRY 4.0 .......................................................................................................................... 507
A A Pradus, A A Karpunin, A I Vasov

MODEL, ALGORITHM AND COMPUTER APPLICATION FOR AUTOMATED SELECTION OF
VARIETIES AND HYBRIDS OF GRAIN CROPS ................................................................................................. 513
A I Pykhlin, A V Gustov

RECURRENT ALGORITHM FOR CALCULATION OF VALUE OF FORMAL DERIVATIVE OF
POLYNOMIAL OVER GALOIS FIELD AND ITS HARDWARE IMPLEMENTATION .............................................. 519
P A Rahman

DEVELOPMENT OF SPECIALIZED ALGORITHM AND HARDWARE IMPLEMENTATION
FOR CALCULATION OF VALUE OF TRUNCATED CONVOLUTION OF POLYNOMIALS
OVER GALOIS FIELD ...................................................................................................................................... 525
P A Rahman

COMPUTER ASSISTED DATA ANALYSIS FOR PREDICTING THE PROTECTIVE
POTENTIAL OF HULL STRUCTURES OF SHIPS AND FLOATING FACILITIES ................................................. 532
A Rodkina, V Kramar, O Ivanova

ALGORITHMS FOR NEUROCOMPUTER PROCESSING AND STORAGE OF ARTIFICIAL
NEURAL NETWORKS ........................................................................................................................................ 538
V A Romanchuk

ON SCHEDULING QUALITY OF PRECISE RESOURCE MEASURE SETS WHICH CONSIST OF
TASKS OF CIRCULAR TYPE IN GRID SYSTEMS ............................................................................................. 544
A E Saak, V V Kureichik

SYNTACTICAL ANALYSIS OF CONTEXT-FREE LANGUAGES TAKING INTO ACCOUNT
ORDER OF APPLICATION OF PRODUCTIONS ................................................................................................. 549
V V Kishkan, K V Safonov, R Yu Tsarev

THREAT MODELLING FOR CREATING TECHNICAL INFORMATION PROTECTION
SYSTEM AT AUTOMATED MACHINE BUILDING PLANTS ............................................................................ 555
N Y Saigushev, O A Vedeneeva, Yu B Melekhova, L S Ryazanova, M V Konовалов

ADAPTATION OF THE Attribute DEPENDENCY MODEL FOR DESIGNING A
HETEROGENEOUS DIGITAL OILFIELD DATA WAREHOUSE ........................................................................... 560
A O Savelev

FUNCTIONAL DEGRADATION OF CYBER-PHYSICAL AERIAL SYSTEM FOR TRAJECTORY
PLANNING AND AGENT TRACKING ................................................................................................................. 565
D Sayfeddine

INFLUENCE OF ORIENTATION OF VERTICAL CRACK OF HYDRAULIC FRACTURING
TREATMENT ON THE EFFICIENCY OF RESERVE RECOVERY .................................................................. 572
A F Shakurova, A F Shakurova

THE INFLUENCE OF ALGORITHMS FOR TUNING THE PARAMETERS OF
NEUROMORPHIC SYSTEMS ON THEIR FAULT TOLERANCE ........................................................................ 579
S N Danilin, S A Shchanikov, I A Bordanov, A D Zuev

AN ASSESSMENT OF MULTIPLE SEAM STRESS CONDITIONS USING A 3-D NUMERICAL
MODELLING APPROACH .............................................................................................................................. 585
A A Sidorenko, Y G Sirenko, S A Sidorenko

MODELLING OF COMPUTATIONAL FLUID DYNAMICS OF GAS DYNAMIC PROCESSES ON
LONGWALL PANEL DURING UNDERGROUND MINING OF FLAT GASSY COAL MULTI-
SEAM .............................................................................................................................................................. 590
A A Sidorenko, V V Ivanov, S A Sidorenko

COMPENSATOR MODELS BASED ON BLOCK-ORIENTED NEURAL NETWORKS ............................................. 595
E B Solovyeva

MATHEMATICAL MODELING OF HARMONIC CORRECTION BY PARALLEL ACTIVE
FILTER IN CONDITIONS OF DISTRIBUTED GENERATION ............................................................................... 601
Yu A Sychev, B N Abramovich, R Yu Zimin, P A Kuznetsov

NUMERICAL ANALYSIS OF SAW PROPAGATION CHARACTERISTICS IN CA2Al2SiO7
CRYSTAL ......................................................................................................................................................... 609
R M Taziev
NUMERICAL INVESTIGATION OF SURFACE AND LEAKY ACOUSTIC WAVE PROPERTIES
IN SRLGAaO- CRYSTAL........................................................................................................615
R M Taziev

A MONTE CARLO INVESTIGATION OF ONE APPROACH TO PRIORITIZATION FOR A
LARGE NUMBER OF SOFTWARE REQUIREMENTS..........................................................620
A Yu Timofeeva, M Sh Mustafina

ENHANCED PUSHDOWN AUTOMATON FOR RECOGNIZING MULTI-SYNTAX
PROGRAMMING LANGUAGES.........................................................................................626
A S Kuznetsov, R Y Tsvet, T N Yamsikh, A N Knyazkov, K Y Zhigalov, Adebanji Ogundade

ALGORITHM DIVERSITY METRIC FOR N-VERSION SOFTWARE ................................632
D V Gracenkin, M A Yakimov, A S Kuznetsov, R Y Tsvet, G V Grishina, A N Papkov, V V Bystrova

FUZZY VOTING ALGORITHMS FOR N-VERSION SOFTWARE ..................................638
R Y Tsvet, M S Durmus, I Ustogov, V A Morozov, A N Papkov

SIMULATION MODELING IN THE PROCESS OF LOADING THE MACHINE AND TRACTOR
FLEET ................................................................................................................................645
Y S Tsytin, A A Alekseev

APPLICATION OF THE EXPERIMENTAL DESIGN ALGORITHMS TO THE CONSTRUCTION
OF ESTIMATED SUBSETS OF MINIMUM COVARIANCE DETERMINANT METHOD ........652
I O Ususa, E A Khailenko

SYSTEM ANALYSIS OF THE FEATURES OF USING INFORMATION MODELS IN
SHIPBUILDING .................................................................................................................659
A V Novikov, A A Barmin, A A Mudrova, Yu V Yasinskaya

THE STUDY OF TEMPERATURE FIELDS OF THE WBC OBJECT IN THREE-DIMENSIONAL
FORMULATION USING NUMERICAL METHODS .........................................................666
D Yerezhep, N Umutbaeva, P Piterskov, A Baranov, A Yerezhep

COMPUTER ANALYSIS OF THE THERMAL STATE OF THE OBJECT AFTER
CRYOTHERAPY ...............................................................................................................672
D Yerezhep, A Yemelyanov, Y Kuznetsov, A Perminov, V Pronin, A Minikaev, A Yerezhep

CONSIDERATION OF THE EFFECTIVENESS OF CRYOTHERAPY FOR DIFFERENT
THICKNESSES OF THE SKIN USING NUMERICAL MODELLING ..................................678
D Yerezhep, A Yemelyanov, Y Kuznetsov, A Perminov, V Pronin, A Minikaev, A Yerezhep

SIMULATION OF A MIXER WITH A BIDIRECTIONAL ROTATIONAL EFFECT ON
MATERIAL ..........................................................................................................................685
K A Yudin, P A Khaikalev

A MATHEMATICAL MODEL OF THE PULSATOR FOR CLEANING PARAFFIN DEPOSITS OF
PIPELINES AND DOWNHOLE EQUIPMENT .................................................................691
L M Zaripova, M S Gabdrakhimov

ON THE QUESTION OF NUMERICAL MODELING OF THE FLOW STABILITY OF BODIES ......696
A N Maksimov, L A Maksimova, N N Arinina, E G Gonik, N V Ivanova, P L Lekotsev, L M Rybakov, N V
Obolesny, S A Ovchukova, A G Terentyev

3 – CONTROL SYSTEMS, INDUSTRIAL AUTOMATION AND MANUFACTURING EXECUTION
SYSTEMS.........................................................................................................................703

AUTOMATION OF DETERMINING THE CONTACT ANGLE OF WASHING LIQUIDS
WETTING .........................................................................................................................708
V V Alekseev, V P Philippov, I V Fadeev, S I Chuchkalov

APPLICATION OF THE NON-STATIONARY WATERFLOODED TECHNOLOGY AND
PERIODICAL OPERATION OF PRODUCTION WELLS FOR HETEROGENEOUSLY
PERMEABLE RESERVOIRS ..........................................................................................708
E M Almukhametova

AUTOMATED CONTROL SYSTEM OF ELECTRIC DRIVE WITH DOUBLY FED INDUCTION
MOTOR .............................................................................................................................713
P V Avlasko, S A Bronov, D A Antonenko, Z A Avlasko

A PARALLEL OPTIMIZATION ALGORITHM FOR PREDICTIVE CONTROL OF MARINE
VESSEL ...........................................................................................................................718
A N Borisov, J L Siek

MONITORING OF THE OPERATION OF SURFACE-DRIVEN SCREW PUMPING UNITS
USING EXPERT CONTROL SYSTEMS .............................................................................723
A Yu Davydov
NEW MODELS AND METHODS OF ORGANIZING DIGITAL CONTROL WITH DIFFERENT REPRESENTATIONS OF INTEGRAL COMPONENT ........................................................................................................... 850
V I Rakov, O V Zakharova, K S Eskin
ABOUT NEW FORECASTING METHODOLOGY FOR DIGITAL CONTROL PROCESSES ............................................................................................................................... 858
V I Rakov, O V Zakharova, K S Eskin
CONTROL OF ACCURACY OF TURNING TREATMENT OF PARTS OF MACHINES BASED ON FUZZY LOGIC ALGORITHMS ...................................................................... 864
A V Shashok, A V Katyskin
OBSERVABILITY AVOIDANCE FOR AUTONOMOUS MARINE VEHICLES BASED ON THE MODEL PREDICTIVE CONTROL ...................................................................................... 871
B A Skoroohad
CONTROL OVER PARAMETERS OF ESCP UNIT TO IMPROVE EFFICIENCY IN BRINGING WELLS TO STABLE PRODUCTION USING A FREQUENCY-CONTROLLED DRIVE ON R. TREBS OIL FIELD ..................................................................................................................... 876
R I Suleimanov, M Ya Khabibullin, Re I Suleimanov
HIERARCHICAL STRUCTURE OF THE ELECTRONIC INFORMATION MODEL OF A SHIP ................................................................................................................................. 881
O V Zab, D U Nesin
IMPROVING SAFETY OF THE OPERATION OF PIPE HEATERS OIL AND GAS PRODUCTION ............................................................................................................................... 888
M G Bashirov, N N Luneva, N G Evdokimova, A M Khafizov

4 – MECHATRONICS, ROBOTICS AND ELECTRICAL DRIVES

AUTOMATED CONTROL OF UNMANNED TRUCK FOR TRANSPORT COMPLEX OF MINING INDUSTRY .................................................................................................................. 892
P K Bakhaev
MICROOPTOELECTROMECHANICAL RING ANGULAR VELOCITY TRANSUDER BASED ON THE OPTICAL TUNNEL EFFECT FOR CONTROL SYSTEM OF MOBILE OBJECTS .......................................................................................................................... 898
V I Basurin, Yn Naing Win
THE CONTROL SYSTEM FOR A MOBILE ROBOT USING ARDUINO MEGA 2560 WITH GPS AND OBSTACLE DETECTION SYSTEMS ........................................................................... 905
P Y Cherepanov, P A Romanov, S V Zharikov, T R Mazhitov
AUTOMATION OF PLASMA TECHNOLOGY AIMED AT THE DISPOSAL OF ORGANIC WASTE ................................................................................................................................. 911
A S Anshakov, P V Domarov, V A Faleev, S I Rudko
APPROXIMATION OF THE PARALLEL ROBOT WORKING AREA USING THE METHOD OF NONUNIFORM COVERING ............................................................................................ 916
E V Gaponenko, D I Malyshiev, L Behera
DETERMINATION OF EXTERNAL POWER FACTORS INFLUENCING UN-MANNED AERIAL VEHICLE OF "FLYING WING" TYPE ......................................................................................... 923
A N Smirnov, A S Govorkov, I V Fokin
DETERMINATION OF THE PRINCIPAL COORDINATES IN SOLVING THE PROBLEM OF THE VERTICAL DYNAMICS OF THE VEHICLE USING THE METHOD OF MATHEMATICAL MODELING .............................................................................................................. 931
V E Gozhenko, S K Kargapol’tsev, B O Kuznetsov, A I Karlina, Yu I Karlina
BUILDING A CONCEPTUAL MODEL OF THE CHAIN HARMONIC DRIVE ................................................................................................................................. 938
S V Kamenev
THE EFFECT OF THE PERIODIC DRIVING FORCE ON A SYSTEM WITH TWO DEGREES OF FREEDOM ..................................................................................................................... 945
S K Kargapol’tsev, V E Gozhenko, B O Kuznetsov, Yu I Karlina, A I Karlina
TECHNIQUE OF VISUALIZATION OF DYNAMIC CHARACTERISTICS OF ELECTROMAGNETIC STRIKE MACHINES .......................................................................................... 951
V A Kargin, A V Volgin, A P Moiseev, L A Lagina, K D Churyaeva
LINEAR STEPPING ELECTROMAGNETIC ENGINE FOR DRIVING CONVEYORS ................................................................................................................................. 957
V A Kargin, A V Volgin, A P Moiseev, A M Maradudin, A A Leontiev, A V Peretyatko
MANAGING THE RELIABILITY OF THE TUBING STRING IN IMPULSE NON-STATIONARY FLOODING ......................................................................................................................... 963
M Ya Khabibullin
A BLOCKCHAIN-BASED TECHNIQUE FOR MAKING SWARM ROBOTICS DISTRIBUTED DECISION ......................................................................................................................... 970
E V Melnik, A B Klimenko, D Y Ivanov
SIMULATION OF AN ADJUSTABLE SYNCHRONOUS ELECTRIC MOTOR DRIVE OF A PUMPING UNIT IN A RESERVOIR PRESSURE MAINTENANCE SYSTEM

A MODEL OF THE WATER ENVIRONMENT ACTION ON ANTHROPOMORPHIC ROBOT ARMS

ANALYSIS OF MAXIMUM BRAKING POWER FOR DETERMINATION OF ENERGY STORAGE DEVICE CHARACTERISTICS WITHIN FUEL CELL ELECTRIC BUS

THE MAIN PRINCIPLES OF THE APPROACH TO THE CONSTRUCTION OF COMBINED WINDINGS WITH ONE SET OF TERMINATIONS

DYNAMIC VIBRATION PROTECTION OF THE RAILWAY CARRIAGE

INTEGRATED INFORMATION AND ANALYTICAL SYSTEMS FOR MONITORING TECHNICAL CONDITION OF ELECTROMECHANICAL EQUIPMENT

IMPROVEMENT OF EFFICIENCY OF MONITORING AND DIAGNOSING ELECTROMECHANICAL SYSTEMS BY AUTOMATING RECOGNITION PARAMETERS

ANALYSIS OF ENERGY CONVERSION IN THE INSTANTANEOUS POWER TRANSFER PROCESS IN THE ELECTROMECHANICAL SYSTEM WITH VARIABLE INDUCTANCE

DYNAMIC MODEL OF THE ELECTROMAGNETIC OSCILLATING SYSTEM WITH ENERGY LOSSES

PROJECT-BASED LEARNING TECHNOLOGY AS MEANS OF SELF-DEVELOPMENT FOR A PROSPECTIVE SPECIALIST IN AUTOMATED MACHINE BUILDING

AUTOMATION OF DETERMINING THE PARAMETERS OF THE ASYMMETRIC MOTOR SHORT-CIRCUIT MODE

TEETH INTERFERENCE IN HARMONIC DRIVES INTENDED FOR HEAVY ENGINEERING

IMPLEMENTATION OF NEURAL NETWORKS FOR OPTIMAL CONTROL IN BIOTECHNICAL EXOSKELETON SYSTEMS

THE RUSSIAN DRAFT BILL OF THE "GRISHIN LAW" IN TERMS OF IMPROVING THE LEGAL REGULATION OF RELATIONS IN THE FIELD OF ROBOTICS: CRITICAL ANALYSIS

RESOURCE-SAVING ELECTROMECHANICAL TRANSMISSION OF THE MINING TRUCK

STATE AND PROSPECTS OF INDUSTRIAL ROBOTICS IN SHIPBUILDING

5 — ELECTRICAL ENGINEERING, FACILITIES AND INSTRUMENTATION

STUDIES OF VOLTAGE STABILIZATION AND BALANCING SYSTEMS IN ENERGY STORAGE MODULES BASED ON SUPERCAPACITORS

MODELING OF A MEASUREMENT ANALOG CHANNEL OF A HARDWARE AND SOFTWARE SYSTEM FOR RESEARCHING MEDICAL ELECTRODES IN MATLAB

AUTOMATION OF CONTROL OF PARAMETERS OF BATTERIES IN THE PROCESS OF THEIR TESTS AND OPERATION

APPLICATION OF THE FLEXOELECTRIC EFFECT IN LIQUID CRYSTALS TO CREATE ACOUSTO-OPTIC TRANSDUCERS
AUTOMATION OF THE PROCESS AND MATHEMATICAL PROCESSING OF THE RESULTS OF ANNEALING THE HEMISPHERICAL RESONATORS.............................................................. 1106
S M Dolapchik, O A Denisonova

THERMAL IMAGING COMPLEX WITH TRACKING FUNCTION FOR JOINT RESEARCH OF MICROHETEROGENEOUS PROCESSES AND MACROKINETICS OF SHS PHENOMENON............................................................ 1111
A V Dolmatov, P Yu Gulyayev

ZONE PHASE RECTIFIER WITH FRACTIONAL NUMBER OF ZONES........................................ 1117
V V Ivanov, S Y Myatezh, A V Kapustin, I K Alekseeva

SYNTHESIS OF MULTI-PHASE ZONE RECTIFIERS WITH COUPLED VOLTAGE SYSTEMS............ 1123
S Y Myatezh, V V Ivanov, M V Rozhkov

IMPROVING THE ACCURACY OF CALCULATIONS OF ELECTRICAL LOADS FOR INDUSTRIAL ENTERPRISES............................................................... 1130
K A Khomiakov, D A Ustionov

EXPERIMENTAL STUDIES IN HEATING OIL-SATURATED ROCK WITH HIGH-FREQUENCY ELECTROMAGNETIC FIELD.................................................................................. 1136
L A Kovaleva, R Z Minigoradzkin, R A Nafikova, R R Zanatullov, R F Sultanguzhin

HARDWARE AND ALGORITHM OF DIGITAL PROTECTION OF ELECTRIFIED RAILWAY TRANSPORT........................................................................................................ 1143
A V Sedelnikov, S L Safronov, E S Khnyryova

APPLYING BARYCENTRIC COORDINATES ON BALANCED SUPPLY VOLTAGES TO TRIANGLE TO ZERO SEQUENCE VOLTAGE ESTIMATE WITHOUT PHASE MEASUREMENTS........................................................... 1149
N N Lopatin

METHODS FOR ASSESSING THE PARAMETERS OF LED-BASED LIGHTING IN LIVESTOCK HOUSES............................................................................................................. 1156
I Yu Loshkarev, T A Shirbovodka

SIMULATION OF THE PARAMETERS OF THE ACRYLIC AND SPECULAR LIGHT PIPE FOR TRANSMITTING LIGHT RADIATION OF THE LED MATRIX........................................... 1160
I Yu Loshkarev, A I Sterhov, K A Petrov

MEASURING SYSTEM FOR STUDYING QUALITY OF WELDED JOINTS OF TITANIUM PLATES BY USING SUBMINIATURE EDDY CURRENT TRANSDUCERS................................. 1168
S F Dmitriev, A M Sagalev, A Y Ishkov, V N Malikov, A A Grigorev

PROMISING ALGORITHM FOR DIAGNOSING VEHICLE IGNITION COILS.................................. 1175
A V Myatezh, L I Kochetkova, E V AKifeva, A V Ivanov

FEATURES OF THE CALCULATION OF DIGITAL PROTECTION OF MANAGED RECTIFIER FROM EXTERNAL AND INTERNAL DAMAGE......................................................... 1181
S M Kaznetsov, R I Khamidullin, A I Alchinov, K R Avetisyan

ALGORITHM OF ELECTROKINETIC DEHYDRATION AND FINAL DRYING OF VALUABLE TREE................................................................................................................. 1187
I Yu Loshkarev, B V Malozerov, K Yu Zhigalov

ALGORITHMS AND FEATURES OF DIAGNOSING OF ELECTRIC FURNACES ELECTRODES BASED ON ELECTRICAL TECHNOLOGIES.................................................. 1191
A V Myatezh, M V Grechnev, K Yu Zhigalov

MAGNETODIELECTRIC AC MEASURING TRANSDUCER FOR AUTOMATION SYSTEMS IN OIL REFINERIES......................................................................................... 1196
D D Fugarov, O A Parchina, A Y Poluyan, A N Gerasimenko, N V Rasteryaev

THERMAL ERROR COMPENSATION IN CNC MACHINE TOOLS USING MEASUREMENT TECHNOLOGIES................................................................................. 1205
A N Polyakov, I V Parfenov

STUDYING OPTOELECTRONIC DETECTORS FOR FATIGUE PARAMETERS CONTROL ON MACHINE-BUILDING METAL SURFACES......................................................... 1212
N R Rakhimov, G A Umarova, Kh D Zakirova

STUDYING OPTOELECTRONIC METHOD OF DETERMINING ONE SUBSTANCE IN THE OTHER IN PETROLEUM PRODUCTION...................................................... 1218
N R Rakhimov, A F Shakurova, Kh D Zakirova

SIGNIFICANCE ESTIMATION OF THE REJECTED PART OF THE SIGNAL SPECTRUM FROM THE MAGNETOMETER SENSORS OF THE Prototype of the AIST SMALL SPACECRAFT........................................................................................................... 1222
A V Sedelnikov, S L Safronov, E S Khnyryova

STUDY OF GEOLOGICAL AND TECHNOLOGICAL FACTORS ON THE EFFICIENCY OF HYDRAULIC FRACTURING................................................................. 1228
A F Shakurova, A F Shakurova
6 – OPERATIONS PLANNING AND ENTERPRISE INFORMATION SYSTEMS

PATTERNS OF RECOVERY AND INJECTION WELLS IN DEPOSITS OF HIGH-VISCOSITY OIL WITH RESERVOIR DECOMPRESSION ZONES .......................................................... 1303
E M Khuchakhetova, Yu A Kotev, Sh Kh Sultanov, A R Safiullina

STUDY OF INFLUENCE OF TEST CASE PARAMETERS ON TEST SUITE OPTIMALITY IN ORDER TO AUTOMATE THE INFORMATION SYSTEMS DESIGN PROCESS ........................................ 1308
A S Artikin, S I Rodzin

SIMULATION-DYNAMIC MODEL FOR CALCULATING THE EQUIPMENT LEASING .......................................................... 1313
A A Boyko, V V Kukartsev, V S Yanchenko, A A Korneev, V A Kukartsev, A S Mikhailov

AUTOMATED CALCULATION OF ECONOMIC FEASIBILITY OF USING VARIOUS TYPES OF PASSENGER PUBLIC TRANSPORT IN RUSSIAN CONDITIONS .................................................. 1319
M V Tarasovets, A A Shishkin, S I Dedov

STUDYING THE NATURAL GAS MARKET UNDER DEMAND UNCERTAINTY USING A HETEROGENEOUS DISTRIBUTED COMPUTING ENVIRONMENT ................................................................... 1325
V I Zorkalzev, A V Edelev, S M Perzhabinskii, I A Sidorenko, A G Fedotov

METHOD FOR SELECTING GEOTHERMAL ENERGY EXTRACTION TECHNOLOGIES USING NOMOGRAMS .......................................................... 1331
K F Gadvakhmanova, G R Emaylova, P A Larin, L S Kuleshova

SIMULATION OF PARTS MANUFACTURING IN THE ENTERPRISE MECHANICAL-REPAIR DEPARTMENT ........................................................................................................... 1336
V A Ivanov, A A Feshchenko

APPLICATION SOLUTION FOR PREPARING BUSINESS PROCESSES INFORMATION FOR THE 1C: ENTERPRISE PLATFORM USING ERWIN PROCESS MODELLER .............................................. 1344
D V Kaplin, P A Russkikh, I A Moor

INTEGRATION CAPABILITIES OF BUSINESS PROCESS MODELS AND ERP-SYSTEMS .......................................................... 1350
D V Kaplin, P A Russkikh, I A Moor

USE OF INFORMATION TECHNOLOGIES OF MANAGEMENT IN PUBLIC AUTHORITIES ACTIVITIES .......................................................... 1356
I I. Kokhanovskaya, A L Fatykhova, F M. Saleimanova, E V. Golovneva
ABOUT NECESSITY TO REGULATE AND AUTOMATE PROCESSES IN THE QUALITY MANAGEMENT SYSTEMS OF THE MECHANICAL ENGINEERING BRANCH ................................................................. 1361
V V Kovalenko, V N Bobkov, V V Kovalenko

APPLYING INFORMATION TECHNOLOGIES IN IDENTIFYING THE FEATURES OF DEPOSIT IDENTIFICATION UNDER CONDITIONS OF DIFFERENT OIL-AND-GAS PROVINCES ................................................................. 1366
L S Kuleshova, V V Mukhametshin, A R Safiullina

DIGITAL CITY: THE CHARACTERISTICS OF DEVELOPMENT INDICATORS OF NEW TECHNOLOGIES ............................................................................................................................. 1370
D A Zakoldaev, A V Gurbakov, A V Shukalov, I O Zharinov, O O Zharinov

COMPILER-COMPILER OF MULTI SYNTAX PROGRAMMING LANGUAGES FOR CREATING N-VERSION SOFTWARE .................................................................................................................. 1376
A S Kaznetsov, R Y Tsarev, T N Yamskikh, A N Kuyakov, A N Pupkov, F A A Laleye

AN INTEGRATED MODEL AS A TOOL FOR IMPLEMENTING AN ENTERPRISE MANAGEMENT METHOD .......................................................................................................................... 1381
S V Lipatova, M N Yarudaeva, I V Lutoshkin, Yu V Polyanskov

FOG COMPUTING IN NEW APPROACH FOR MONITORING OF HAZARDOUS PHENOMENA ................................................................. 1386
E V Melnik, M V Orda-Zhigudina, D V Orda-Zhigulina, D Y Ivanov, A A Rodina

MANAGEMENT ACCOUNTING INFORMATION SYSTEM FOR BLOCK PARQUET MANUFACTURING ................................................................. 1393
S V Mftychev

ECONOMIC EFFICIENCY OF MANAGEMENT AUTOMATION IN EDUCATIONAL ORGANIZATIONS .......................................................................................................................... 1400
T S Alenicheva, N A Mamaeva, O Yu Patlasov

EVALUATING THE TECHNOLOGICAL EFFECT OF A HORIZONTAL HYDRAULIC FRACTURING ......................................................................................................................... 1408
L V Petrova, V V Buravov

OPTIMAL ORGANIZATION OF MULTI-PERF SCIENCE PRODUCTION .......................................................................................................................... 1413
A M Pishchukhin, G F Akhmedyanov

DECISION-MAKING PROCESS MODELING FOR OCCUPATIONAL SAFETY MANAGEMENT SYSTEM BASED ON A FUZZY ANALYSIS OF PRODUCTION INCIDENTS ......................................................................................................................... 1419
A Yu Semeykin, I A Kochetkova, E V Klimova, E A Nosatova, A O Drozdova

METHODOLOGY OF PROBABILISTIC MODELLING OF THE CURRENT ACTIVITY OF INDUSTRIAL ENTERPRISES ................................................................. 1425
M V Drapalyuk, T L Bezrukov, I I Shamin, B A Bezrukov

ECONOMIC-MATHEMATICAL SIMULATION MODELING OF MANAGEMENT AND INNOVATIVE ACTIVITIES OF THE INDUSTRIAL ENTERPRISES ......................................................................................................................... 1433
I I Shamin, O A Boris

MODELING THE PRIORITY DIRECTIONS OF INNOVATIVE DEVELOPMENT POLICY OF TIMBER PROCESSING COMPLEX ENTERPRISES BASED ON CORRELATION ANALYSIS ......................................................................................................................... 1440
I I Shamin

IDENTIFYING DUPLICATED ADS ON PROPERTY SELLING AND RENTING WEBSITES .......................................................................................................................... 1447
V S Tynchenco, V V Kukartsev, V V Tynchenco, V V Bukhtoyarov, E A Chzhan, V A Kukartsev, A A Boyko

AUTOMATION OF PERSONNEL MANAGEMENT OF THE ENTERPRISE BASED ON INTANGIBLE STIMULATION ................................................................................................. 1452
V A Baranov, V V Kukartsev, A A Boyko, V S Tynchenco, V A Kukartsev, E A Chzhan, A S Mikhailov

SOLVING THE PROBLEM OF TRUCKING OPTIMIZATION BY AUTOMATING THE MANAGEMENT PROCESS .......................................................................................................................... 1459

MATHEMATICAL COMPETENCE DEVELOPMENT OF BACHELOR OF ENGINEERING .......................................................................................................................... 1465
M Vinogradova, N Malchukova, S Dorofeev

ASSESSMENT OF THE UNCERTAINTY FACTORS IN COMPUTER MODELLING OF AN AGRICULTURAL COMPANY OPERATION ......................................................................................................................... 1474
L A Zaporozhtseva, T V Sabetova, I Yu Fedulova

REALIZATION OF PROJECT PROCEDURES IN THE ITEM DESIGNING COMPANIES OF THE INDUSTRY 3.0 AND INDUSTRY 4.0 ................................................................................................. 1483
D A Zakoldaev, A V Shukalov, I O Zharinov, O O Zharinov

THE APPLICATION OF KRONE MODEL TO DESCRIBE THE PRODUCTION FACILITIES OF THE INDUSTRY 4.0 SMART FACTORIES .......................................................................................................................... 1489
D A Zakoldaev, A V Garjanov, A V Shukalov, I O Zharinov
7 – COMPUTER AIDED DESIGN AND HUMAN FACTORS ENGINEERING

ROBOTIC SYSTEM DEVELOPMENT USING CAD/CAM/CAE OF NX .................................................. 1510
S I Anciferov, E V Gaponenko, V S Kazmina

THE STRESS-STRAIN STATE SIMULATION OF THE AIRCRAFT FUNSELAEG STRETCH FORMING IN THE ANSYS .......................................................... 1517
I K Andrianov, A V Stankevich

UTILIZING THE 3D MODELING TECHNOLOGY TO DESIGN A WELDING FIXTURE .......................... 1523
A L Fedorov, S V Mkrtychev, O A Enik

SEQUENTIAL ANALYSIS OF VARIANTS AND OPTIMAL DESIGN TECHNIQUES FOR HUMAN-MACHINE SYSTEMS ............................................................................ 1529
M G Grif, S A Kochetov, N D Ganelina

DEVELOPMENT OF COMPUTER-AIDED DESIGN SYSTEM OF SENSITIVE ELEMENTS OF CONTROL AND AUTOMATION SYSTEMS ........................................... 1535
S V Bibikov, V O Bolshakov, M E Kailinkina, A G Korobeynikov, O I Pirozhnikova, V L Tkali ch

EFFICIENCY ENHANCEMENT METHOD FOR DISTRIBUTED CAD SYSTEMS IN FOG-COMPUTING ENVIRONMENTS .............................................................. 1541
V M Kareyychik, I B Safronenkova

THE FORMATION OF THE SCOPE OF ARCHITECTURAL DESIGN IN THE CONTEXT OF USING INFORMATION TECHNOLOGY ......................................................... 1548
N A Saprykina

APPLICATION OF COMPUTER-AIDED SKETCHING FOR DESIGNING THE BODY OF THE NON-INVASIVE COSMETIC MESOTHERAPY DEVICE ........................................ 1553
Y S Petrov, V A Seryakov, Y P Khmelevsky, E P Baklanova

COMPUTER-AIDED ANALYSIS OF SYSTEM DYNAMICS MODELS ...................................................... 1558
Yu V Shornikov, E A Popov

QUALITY ASSESSMENT OF THE INTERNET PORTAL ACADEMIC UNIT OF THE HIGHER EDUCATIONAL ESTABLISHMENT WITH THE HELP OF THE FUZZLE SET ......................................................... 1564
R U Stativko

THE PROCEDURE OF DEVELOPING THE 3D MODEL OF A SMALL-TONNAGE STEEL SHIP ............. 1569
A O Vorotnyuk, D U Nesin

MODELING OF MINE WORKINGS INTERSECTIONS IN KOMPAS 3D PROGRAM ..................... 1574
A E Sudarikov, E Kh Murathakeev, I E Zvonarev
