# TABLE OF CONTENTS

## BLOWMOLDING, THERMOFORMING AND ROTOMOULDING

AGEING BEHAVIOR OF THERMALLY JOINED HYBRIDS CONSISTING OF LASER PRE- TREATED METAL AND THERMOPLASTIC POLYMERS .......................... 1
Niclas Emrich, Stefan Meyer

## EXTRUSION AND EXTRUSION PROCESSES

INVESTIGATIONS ON THE INFLUENCE OF THE EXTRUSION PROCESS ON THE FOAM STRUCTURE OF MECHANICAL SUPPORTING PHENOLIC SHEETS ................................................................. 9
Daniel Methe, Michael Gehde

PLANT DESIGN, STRESS-STRAIN CHARACTERISTICS IN COMPRESSION AND LIFECYCLE DESCRIPTION OF COILED FILAMENT MATS BASED ON PRODUCTION ACCORDING TO FITZER ..... 14
Elmar Moritzer, Tobias Westheus

ENERGY CONSUMPTION OF HIGH SPEED MULTISCREW EXTRUDERS ................................................................. 19
Mansour Albareeki, Javier Vela Sorroche, Carol Barry

STUDIES ON SINGLE-SCREW EXTRUSION OF WOOD-POLYMER COMPOSITES WITH YIELD STRESS AND SLIP EFFECTS ........................................................................................................ 24
Krzysztof Wilczynski, Kamila Baziak, Adrian Lewandowski, Krzysztof J. Wilczynski, Andrzej Nastaj

PVC GELATION INSIDE A SINGLE SCREW EXTRUDER AND ITS EFFECT ON PRODUCT PROPERTIES ............................................................................................................................... 29
A. Demirci, I. Teke, A. Goger, E. Canbaz, J. Vlachopoulos

MECHANICAL PROPERTIES OF ADDITIVELY MANUFACTURED INSERT WITH NUMERICAL ANALYSIS IN EXTRUSION PROCESS ................................................................................ 34
Ali Davoudinejad, Mohamad Bayat, Allan Larsen, David Bue Pedersen, Jesper Henri Hattel, Guido Tosello

## FIBER, FILMS AND MEMBRANES

ANALYSIS OF FIBER STRUCTURE AND PROPERTIES OF DRAWN FIBERS PREPARED BY COLD DRAWING IN ETHANOL AND SUBSEQUENT HOT DRAWING ................................................................. 39
Dongwoo Go, Wataru Takarada, Arun Aneja, Takeshi Kikutani

THE EFFECT OF DIFFERENT PROCESS PARAMETERS ON POLY AMIDE 66 NANO FIBER BY FORCESPINNING METHOD ............................................................................................................. 44
Vahid Bazrafshan, Arash Saeidi, Afshin Mousavi

PILOT-SCALE MELT-SPINNING OF POLY(ε-CAPROLACTONE): SOLID AND LIQUID-CORE FILAMENTS ................................................................................................................................. 49
Figen Selli, Ümit Halis Erdogan, Edith Perret, Rudolf Hufenus

OPTIMIZATION OF THE UV STABILIZATION OF A PLASTICIZED PVC FILM FOR EXTERIOR AUTOMOTIVE APPLICATIONS ........................................................................................................... 50
Hélène Deliniere, Jacques Lefranc, Fabienne Deuze, Laurent Darcheville, Jérémie Souletin, Sébastien Charlon, Marie-France Lacomme

PREPARATION OF NANOFIBERS BY FORCE SPINNING, BASED POLYVINYLPYRROLIDONE AND ITS APPLICATION IN WOUNDS HEALING .................................................................................. 55
Amirhossein Najafi, Arash Saeidi, Afshin Mousavi

AN EXPERIMENTAL STUDY FOR DETERMINATION OF CONVECTIVE HEAT TRANSFER COEFFICIENTS ON YARN PRODUCTION LINE ........................................................................... 60
Mert Patakavak, Hakan Demir

INFLUENCE OF MW WEIGHT AVERAGE MASS OF THE POLYMER SUPPORT ON THE EVOLUTION OF PERFORMANCE RELATING TO EXTRACTION MEMBRANE PROCESSES OF CR(VI) IONS ........................................................................................................................ 65
Imane Mourtah, Rachid Ouchen, Youssef Chaouqi, Tarik Eljaddi, Nezha Sefiani, Miloudi Hlaibi
INJECTION MOLDING

PROCESSING OF ULTRA-HIGH MOLECULAR WEIGHT POLYETHYLENE (UHMWPE) WITH REGULAR AND SPECIAL INJECTION MOLDING TECHNOLOGIES ................................................................. 70
Lih-Sheng Turng, Galip Yilmaz

DEVELOPMENT OF THE MONITORING METHODS OF THE VENTING HOLE CLOGGING IN INJECTION MOLD ................................................................. 75
Bongju Kim, Jinsu Gim, Joohyeong Jeon, Taejoon Jeong, Eunsu Han, Byungokh Rhee

DEVELOPMENT OF A SCREW-MOUNTED TEMPERATURE SENSING SYSTEM TO MEASURE THE MELT TEMPERATURE DURING PLASTICIZING OF THE INJECTION MOLDING ................................................................. 80
Joohyeong Jeon, Eunsu Han, Jinsu Gim, Bongju Kim, Taejoon Jeong, Byungokh Rhee

NUMERICAL SIMULATION FOR PREDICTING SINK MARKS ON INJECTION MOLDING AND INJECTION COMPRESSION MOLDING PROCESS ................................................................. 85
Enzo Chen

EFFECTS OF RAPID CAVITY TEMPERATURE VARIATIONS ON THE CRYSTALLINITY OF PLA ......................................................................................................................................................................................... 90
Annarita De Meo, Felice De Santis, Roberto Fantani

SIMULATION OF INTERFACE STRENGTH FOR A TWO-COMPONENT INJECTION MOULDED WHEEL PRODUCT OF HDPE AND EPDM RUBBER ......................................................................................................................................................................................... 95
Wim Six, Gert-Jan Bex, Jozefien De Keyzer, Albert Van Bael, Frederik Desplenter

COMPARISON OF ADDITIVE AND CONVENTIONAL MANUFACTURED INJECTION MOLDING INSERTS ......................................................................................................................................................................................... 100
Thomas Mitterlehner, Georg Steinbichler

INFLUENCES OF MICRO-RIDGES ORIENTATION AND DENSITY ON THE REPLIcation OF MICRO-STRUCTURED SURFACES BY INJECTION MOLDING ......................................................................................................................................................................................... 105
Francesco Regi, Alberto Basso, Darío Loaldi, Martin Kain, Dongya Li, Yang Zhang, Guido Tosello

INTELLIGENT PARAMETER OPTIMIZATION OF INJECTION MOLDING PROCESS ......................................................................................................................................................................................... 110
Shih-Chih Nian, Ming-Shyan Huang, Yung-Chin Fang

MIXING AND COMPOUNDING

TECHNICAL PROGRESS IN FILLER COMPOUNDING USING A TWIN SCREW EXTRUDER ......................................................................................................................................................................................... 115
Natinee Lopattananon, Tadamitsu Sakai

INFLUENCE OF THE DEGREE OF CRYSTALLINITY AND THE SURFACE FREE ENERGY ON THE ADHESION PROPERTIES OF DIFFERENT PLA/PBS BLENDS IN MULTICOMPONENT INJECTION MOLDING ......................................................................................................................................................................................... 120
Kahra Guzel, Marco Klute, Naci Kargan, Hans-Peter Heim

STRATH RESISTANCE IMPROVEMENT OF THE PLASTIC MATERIALS ......................................................................................................................................................................................... 125
Seda Koksal Yeggin

HIGH PERFORMANCE SILANE COUPLED BASALT FIBER – POLYPROPYLENE COMPOSITES PREPARED BY MELT COMPOUNDING ......................................................................................................................................................................................... 132
Orkun Kaymakci, Nurseli Uyanik

LOW DENSITY, HIGH MODULUS POLYPROPYLENE WOOD COMPOSITES PREPARED BY USING THERMO KINETIC MIXER ......................................................................................................................................................................................... 137
Cagla Girisken, Ceyda Yannaz, Buse Nur Can, Yakap Ulcer, Yusuf Ziya Menceoglu

MORPHOLOGY AND STRUCTURAL DEVELOPMENT

THE ROLE OF NANO-PARTICLES LOCALIZATION ON MORPHOLOGY AND ITS INFLUENCE ON FRACTURE TOUGHNESS ENHANCEMENT OF POLYPROPYLENE/ETHYLENE-OCTENE-COPOLYMER BLENDS ......................................................................................................................................................................................... 142
Fatemeh Morshedi, Hossein Nazockdast

THE IN SITU MICRO/NANO-FIBRILLATION CONCEPT AS AN EFFICIENT ROUTE FOR THE ENHANCEMENT OF THE PROCESSABILITY AND MECHANICAL PROPERTIES OF BIO-BASED POLYMERIC BLOWN FILMS ......................................................................................................................................................................................... 148
Tarek Dadouche, Mohamed Yousfi, Cédric Samuel, Jérémie Soulestin, Marie-France Lacrampe

FLEXIBLE ELECTROSPUN PET/TiO2 NANOFIBROUS STRUCTURES FOR DYE-SENSITIZED SOLAR CELL (DSSC) PHOTOANODES ......................................................................................................................................................................................... 153
Hajer Gallah, Frej Mighri, Abdelilah Ajji, Jayita Bandyopadhyay

THE SYNERGISTIC EFFECT BETWEEN PHENOXY THERMOPLASTIC AND CORE-SHELL RUBBER (CSRS) PARTICLES ON TOUGHNESS PROPERTIES OF HIGHLY CROSS-LINKED EPOXY RESIN ................................................................. 245
Wael Ballout, Pascal Van Velthem, Thomas Pardoen, Christian Bailly

HIGH DENSITY POLYETHYLENE/UNCARBONIZED AND CARBONIZED WASTE CORN HUSK COMPOSITE MATERIALS: PHYSICAL AND WEAR BEHAVIORS ............................................................... 247
Ayberk Aka, Ahmet Yigit Tekerek, Gunmze Guler, Munir Tasdemir

A NEW ANISOTROPIC FIBER ORIENTATION MODEL FOR LONG FIBER COMPOSITES IN INJECTION MOLDING SIMULATION ................................................................. 252
Huan-Chang Tsong

THE THERMAL CONDUCTIVITY AND MECHANICAL PROPERTIES OF SYNTHETIC GRAPHITE LOADED POLYPHENYLENE SULFIDE COMPOSITES ............................................................... 257
Gozde Sevig Tantug, Yoldas Seki, Mehmet Sarikamat, Lutfiye Altay, Sena Gülen, Akin Isibilitir

CALCIUM FILLED BACTERIAL CELLULOSE BASED COMPOSITE HYDROGEL FOR BONE TISSUE ENGINEERING: OPTICAL MICROSCOPY AND BONE MARKER ANALYSIS ............................................................... 261
Probal Basu, Nabantita Saha, Radostina Alexandrova, Petr Saha

INFLUENCE OF SCREW CONFIGURATION IN TWIN SCREW EXTRUDER ON THE DYNAMIC VISCOCOELASTIC PROPERTIES OF HEMP FIBER REINFORCED PLANT-DERIVED PA1010 BIOMASS COMPOSITES IN MOLTEN STATE ............................................................... 266
Yossuke Nishitani, Maiko Morino

POLYMER FOAMS

THERMOSETTING POLYURETHANE FOAMS BY PHYSICAL BLOWING AGENTS: CHASING THE SYNTHESIS REACTION WITH THE PRESSURE ...................................................................................... 271
Maria Rosaria Di Caprio, Cosimo Brondi, Ernesto Di Maio, Thomas Mosciatti, Sara Cavalca, Vanni Parenti, Maurizio Corti, Salvatore Iannace

CONTINUOUS PRODUCTION AND FINAL PART PROPERTIES OF EXPANDED POLYAMIDE 12 BEADS (EPA) .................................................................................................................. 276
Dominik Dörr, Daniel Raps, Dharan Kirupanantham, Chris Holmes, Volker Alstädt

FOAM INJECTION MOLDING OF PHENOLIC RESINS ................................................................................. 281
Martin Bayer, Torsten Maenz, Gerrit Hüllder, Pierre Eckold, Michael Gehde

BEADFOAMS WITH INCREASED HEAT STABILITY MADE FROM THE ENGINEERING POLYMER POLYBUTYLENE TEREPHTHALATE (E-PBT) .................................................................................... 286
Tobias Standau, Peter Schreier, Kathrin Hilgert, Volker Alstädt

EFFECT OF TPU SOFT SEGMENT MOLECULAR WEIGHT ON TPU’S BEAD FOAMING BEHAVIOR ................................................................. 291
Bige Bati, Emine Busra Kucuk, M. Reza Nofar

EFFECT OF TPU HARD SEGMENT ON TPU’S BEAD FOAMING BEHAVIOR ................................................................. 296
Emine Busra Kucuk, Bige Bati, M. Reza Nofar

THERMO-EXPANDABLE MICROCAPSULE AS A BLOWING AGENT FOR PRODUCING THERMOPLASTIC ELASTOMER VULCANIZED SYNTACTIC FOAM ................................................................................. 301
Mickaël Riou, Gilles Ausias, Thierry Gaudry, Jean-Marc Veillé, Julien Férec, Antoine Primel, Yves Grohens

INFLUENCE OF PROCESS MANAGEMENT ON THE INCREASE OF DYNAMIC SOLUBILITY LIMITS IN INJECTION FOAM MOLDING .................................................................................. 306
Clemens Kastner

THE INFLUENCE OF DESIGN AND PROCESS PARAMETERS ON MICROCELLULAR FOAMS FOR AUTOMOTIVE APPLICATIONS ................................................................................. 311
Burcu Girkınler, Burcu Girkınler, Fatma Seniha Guner

EMI SHIELDING PERFORMANCE OF NATURAL RUBBER-BASED NANO COMPOSITE FOAMS WITH SEGREGATED CNT NETWORK .................................................................................. 316
Luigi Sorrentino, Marta Oliverio, Yanhu Zhan, Jian Wang, Andrea Sorrentino, Giovanna Buonocore, Marino Lavorgna, Hesheng Xia, Salvatore Iannace

MULTI-GRADED FOAMS BY GAS FOAMING USING PERIODIC MASS TRANSPORT BOUNDARY CONDITIONS .................................................................................................................. 321
Marco Trofa, Ernesto Di Maio, Pier Luca Maffettone

COMBINING SUPERCritical FOAMING AND POLYMER LEACHING TO OBTAIN FIBRILLATED AND HIGHLY INTERCONNECTED POROUS POLYMER SCAFFOLDS ................................................................................. 326
Zhixi Li, Haiyang Guo, Jing Jiang, Jianhua Hou, Xiaofeng Wang, Qian Li
CHARACTERIZATION OF MECHANICAL AND THERMAL PROPERTIES OF PLA/BLOWING AGENTS COMPOSITES .................................................................................................................. 331
Tomasz Garbacz

POLYMER NANO COMPOSITES AND NANOTECHNOLOGY

STUDY ON ADDITION EFFECT OF DIHYDROXYMETHYLPHENOL (DHMP) ON CONDUCTIVITY OF POLY(3,4-ETHYLENEDIOXYTHIOPHENE) DOPED WITH POLY(STYRENE SULFONIC ACID) (PEDOT: PSS).................................................................................................................. 336
Shigeji Konagaya, Kazuaki Sanada, Yoshiichi Tawara

EVALUATION OF ELECTROSPUN POLYMERIC NANOFIBERS FOR SOUND ABSORPTION APPLICATIONS ............................................................................................................. 341
Ali Elkasaby Mohammed, Utkarsh Utkarsh, Nabeel Syed, Remon Pop-Iliev, Ghaus Rizvi, Atef Mohany

PROPERTIES OF POLY(L-LACTIC ACID) BLENDS BASED NANOCOMP Osite FILMS PREPARED WITH METAL ORGANIC FRAMEWORKS .................................................................................................................. 346
Selin Arican, Sennur Deniz, Ceren Alpaslan Guler

RHEOLOGICALLY DETERMINED EFFECT OF BLOCK COPOLYMER MORPHOLOGY ON DISPERSION OF CNT IN SEBS/CNT NANOCOMPOSITES .................................................................................................................. 346
Kosar Alavi, Parvin Alae, Hossein Nazockdast

GRAPHENE FROM WASTE TIRE BY RECYCLING TECHNIQUE FOR COST-EFFECTIVE AND LIGHT-WEIGHT AUTOMOTIVE PLASTIC PART PRODUCTION .................................................... 351
Burcu Saner Okan, Yusuf Ziya Menceloglu, Burcu Girginer-Ozunbi, Yavuz Emre Yagci

INVESTIGATION ON THE INFLUENCE OF MULTISTEP PROCESSING ON THE MECHANICAL AND THERMAL PROPERTIES OF CELLULOSE REINFORCED EVOH COMPOSITES .................................................................................................................. 353
Georg Graninger, Sandeep Kumar, Brian G. Falzon

ELASTOMERIC BIO-BASED EPOXY / CLAY NANOCOMPOSITES .................................................................................................................. 356
Andres Rigail-Cedeño, Daniel F Schmidt, Monica Chavez, Grave Vera, Mercedes Alava, Yesenia Pacheco

CHARACTERIZATION OF NANOPARTICLE DISPERSION AND OPTIMAL MIXING CONDITIONS FOR POLYMER NANOCOMPOSITES .................................................................................................................. 360
Jayadurga Iyer Ganapathi, Frank Fisher, Dilhan Kalyan

RELEASE OF OREGANO ESSENTIAL OIL FROM PHBV ACTIVE FILMS CONTAINING NANOCLAYS .................................................................................................................. 365
Renata Cervuti Du Costa, Tales Da Silva Duitx, Raquel Santos Mauler, Janaina Da Silva Crespo, Marilia Mostto, Larissa Nardini Carli

EFFECT OF NON-COVALENT INTERACTIONS ON STRAIN SENSING PERFORMANCE OF 3D PRINTED CONDUCTIVE POLYMER COMPOSITES .................................................................................................................. 370
Dong Xiang, Xuezhong Zhang, Yuntao Li

EFFECT OF HALLOYSITE NANOTUBE ON MECHANICAL AND BIOLOGICAL PROPERTIES OF POLYLACTIC ACID SCAFFOLDS FABRICATED BY FOAM INJECTION MOLDING .................................................................................................................. 375
Meltem Eryildiz, Mirgül Altan

PHASE MORPHOLOGY AND FRACTURE BEHAVIOUR OF MULTIPHASE EPOXY NANOCOMP Osite MATERIALS .................................................................................................................. 380
Hong Ma, M. Ali Aravand, Brian Falzon

EFFECT OF MWCNT ON RHEOLOGICAL BEHAVIOR AND MECHANICAL PROPERTIES OF SEBS/MWCNT NANOCOMPOSITES .................................................................................................................. 385
Parvin Alae, Kosar Alavi, Hossein Nazockdast

MORPHOLOGICAL AND RHEOLOGICAL CHARACTERIZATION OF CARBON NANOTUBES/POLY (L-LACTIC) ACID/EThYLENE-CO-VINYL ACETATE NANOCOMPOSITES .................................................................................................................. 390
Elaheh Abdollahzade Tabrizy Moghaddam, Hamid Garmabi, Hossein Nazockdast

PROPERTIES OF PS/HALLOYSITE AND PS/SEPIOLITE NANOCOMPOSITES PRODUCED BY MELT BLENDING .................................................................................................................. 395
Nurseli Uyanik, Reşifik Arat

POLYMERIZATION AND SYNTHESIS

MECHANICAL PROPERTIES OF POLYURETHANE FILMS SYNTHESIZED FROM BIO-BASED HYBRID POLYOL BLENDS .................................................................................................................. 400
Sevilay Nigar, Sennur Deniz
SYNTHESIS OF NOVEL COPOLYMER BASED ON N-VINYLCAPROLACTAM AND ACRYLAMIDE MONOMERS FOR HIGH TEMPERATURE DRILLING APPLICATIONS .................................................. 415
Hafiz Ahmed, Muhammad Shahzad Kamal, Mamdouh Al-Harthi

EFFECT OF THE CHAIN TRANSFER AGENT ON PRESSURE-SENSITIVE ADHESIVE PERFORMANCE OF BUTYL ACRYLATE BASED LATEXES AND DETERMINATION OF ODOR LEVEL CAUSED BY SULFUR DERIVATIVE COMPOUND ..................................... 420
Ecem Temelkaya Bilgin, Murad Turna, Caansu Akarsu Dülger

OBTAINING BLACK ELECTROCHROMIC MATERIALS BY COPOLYMERIZATION OF EDOT AND STAR SHAPED CARBAZOLE DERIVATIVES .............................................. 425
Merve Güzel, Metin Ak

PROCESS MODELING AND SIMULATIONS

MORPHOLOGY DISTRIBUTION WITHIN INJECTION MOLDED PARTS, INTERPRETATION ON THE BASIS OF STRETCH AND WORK EVOLUTIONS ........................................... 430
Giuseppe Titomanlio, Vito Speranza, Sara Liparoti, Roberto Pantani

MODELLING AND SIMULATION OF THERMOSET INJECTION MOLDING PROCESS ........................................ 435
Ngoc Tu Tran, Michael Gehde

NON-STANDARD WARPAGE PREDICTION FOR SHORT FIBER-REINFORCED THERMOPLASTIC COMPONENTS ........................................................................................................ 440
Armin Kech, Valérie Le Baube, Viven Le Baube

AN EFFICIENT PARAMETER IDENTIFICATION FOR MACROSCOPIC FIBER ORIENTATION MODELS WITH EXPERIMENTAL DATA AND A MECHANISTIC FIBER SIMULATION .................................................................................................................. 446
Susanne Katrin Kugler, Gregory Lambert, Camilo Cruz, Armin Kech, Tim Osswald, Donald Baird

NEW ANALYTICAL APPROACH TO CALCULATE THE MELT FLOW WITHIN THE CO-ROTATING TWIN SCREW EXTRUDER BY USING THE PERFORMANCE MAPPING METHOD ................................................................................................. 451
Volker Schöppner, Frederik Sporkmann, Alexander Heide

ANALYSIS OF THE CHARACTERISTIC FLOW AREAS FOR ERDMENGER-ELEMENTS TO PREDICT THE THROUGHPUT-PRESSURE BEHAVIOR OF CO-ROTATING TWIN SCREW EXTRUDERS BY USING 3D FEM SIMULATION ........................................... 456
Frederik Sporkmann, Volker Schöppner

THE USE OF FLOW-TYPE DEPENDENT STRAIN REDUCTION PARAMETER IN FIBER ORIENTATION PREDICTIONS FOR INJECTION-MOLDED CENTER-GATED DISK .................................. 461
Hongyu Chen, Peter Wapperom, Donald Baird

POLYMER SEALING BY HEAT TRANSFER MODELLING ..................................................................................... 467
Felice De Santis, Auli Nummila-Pakarinen

PROCESS MONITORING, CONTROL AND SENSORS

FLOW ANALYSIS OF VISCOELASTIC FLUID STIRRED BY SINGLE ROTOR ......................................................................................... 472
Takushi Saito, Yuki Noguchi, Kosuke Higashi, Kazuhiro Fukutani, Tatsuya Kawaguchi, Isao Satoh

CONDITION MONITORING OF NON-RETURN VALVES IN INJECTION MOLDING MACHINES USING AVAILABLE PROCESS AND MACHINE DATA ........................................ 476
Chen-Liang Zhao, Reinhard Schiffers

REACTIVE PROCESSING

THREE DIMENSIONAL NUMERICAL SIMULATIONS FOR WET-RTM PROCESS ......................................................... 481
Hsun Yang, Chih-Chung Hsu, Chia-Hsiung Hu

SELECTIVE MODIFICATION TO AN INNOVATIVE NEW HIGH ESCR HDPE .......................................................... 489
Marcelo Farah, Marcos Roberto Bueno, Barbara Iria Mano, Mariele Kaipers Stocker, Vinicius G. Grassi

NON-ISOTHERMAL CRYSTALLIZATION KINETICS OF CHAIN EXTENDED POLY (L-LACTIC ACID) ......................................................... 494
Elnaz Erfanian, Omid Yousefzade, Mohammad Moin Garmabi, Hamid Garmabi
# RHEOLOGY AND RHEOMETRY

**Impact of Spacer on Rheological Properties of Polyoxyethylene Cationic Surfactant-Polymer Solution** ................................................................. 499  
Muhammad Shahzad Kamal, S.M. Shakil Hussain, Lionel T. Fogang, Ahmad Mahboob, Sarmad Zafar

**Advanced Robust Rheological Characterisation for Rigid PVC Extrusion** ................................................................. 505  
Frederik Desplentere, Sofie Deceur, Maxim Vinandale

**Rheological Behavior of Xanthan-Based Hydrogels Crosslinked with Bi-Functional/Tetra-Functional Crosslinker** ................................................................. 510  
Ghazaleh Azizi Saadatlou, Gholamreza Pircheraagh

**Synthesis of Novel Polymer Nanocomposite for Water-Based Drilling Fluids** ................................................................. 514  
Hafiz Ahmad, Muhammad Shahzad Kamal, Mamdouh Al-Harthi, S.M. Shakil Hussain

---

# RUBBER AND ELASTOMERS

**Promoting the Strain-Induced Crystallization of NR/HNT Composites Through the Use of Modified Palm Stearin** ................................................................. 519  
Nabil Hayeem, Nureezyah Jeshoh, Kannika Sahakaro

**New Material for Highly Dispersed Silica Filled ESBR Compound; ESBR/Silica Wet Masterbatch** ................................................................. 524  
Wonho Kim, Woor Jung Son, Jong Woo Bae, Hee Seok Oh, Muhammad Iz

**Effect of Polymer Relaxation in Automated Micro Polishing** ................................................................. 529  
Soufian Ben Achour, Wule Zhu, Anthony Beaumap, Giuliano Bissacco, Leonardo De Chiffre

**The Assessment of Elastomers in Machine Direction Oriented Breathable Hygiene Films for Strengthening Machine Direction Tear Performance** ................................................................. 535  
Tolga Ceper, M. Fatih Erguney

---

# SPECIAL SYMPOSIUM: ADDITIVE MANUFACTURING (3D PRINTING)

**Integration of Sensors in Polymer Parts Produced with Laser Sintering (LS)** ................................................................. 540  
Philipp Stoll, Manfred Schmid, Margret Schmock Von Ohr, Konrad Wegener

**Additive Manufacturing of Large Parts by an Extrusion Based Hybrid Approach** ................................................................. 545  
Christian Hopmann, Lukas Pelzer

**Mechanical Behaviour of Scaffold-Like Structures: Research of Relationships Between Properties and Geometry** ................................................................. 550  
Claudia Pagano, Lara Rebaioli, Francesco Baldi, Irene Fassi

**Carbon Fibre Reinforced Thermoplastics for Material Extrusion** ................................................................. 555  
Joamin Gonzalez Gutierrez, Manuel Treitler, Martin Spoerk, Florian Arbeiter, Stephan Schuschmigg, Herfried Lammer, Maximilian Lackner, Mohamed Aburaaia, Guenther Poszvek, Haiquang Zhang, Janak Sapkota, Clemens Holzer

**Development of Eco-Friendly Composites Based on Polypropylene and Cellulose for Additive Manufacturing (Fused Deposition Modeling)** ................................................................. 561  
Elena Mastalygina, Petr Pantyukhov, Alessio Massironi, Dario Puppi, Andrea Morelli, Federica Chiellini

**Additive Manufacturing for Extrusion Tooling** ................................................................. 566  
Sonne Van Den Broeck, Tim Claey, Wim Six, Frederik Desplentere

**Fabrication and Characterization of 3D Printed PLA Scaffold** ................................................................. 571  
Jassimran Kaur Arora, Pooja Bhatti

**Design of 3D Scaffold Geometries for Optimal Biodegradation of Poly(lactic acid)-Based Bone Tissue** ................................................................. 576  
Pedram Karimipour-Fard, Remon Pop-Iliev, Holly Jones-Taggart, Ghaus Rizvi
NEW HYBRID NANO ADDITIVES FOR THERMOPLASTIC COMPOUNDING: CVD GROWN CARBON FIBER ON GRAPHENE
Elcin Cakal Sarac, Leila Haghighi Poudeh, Jamal Seyyed Monfared Zanjani, Fevzi Cakmak Cebeci, Ismail Aydin, Yusuf Menceloglu, Burcu Saner Okan

TEX2MAT: DEVELOPMENT OF NEW TREATMENT METHODS FOR MULTI MATERIAL TEXTILE WASTE
Uta Jenull-Halver, Clemens Holzer, Benjamin Piribauer, Felice Quartinello

PROPERTIES OF LIGNOCELLULOSIC COMPOSITES OF COFFEE HUSK FILLED POLYPROPYLENE
Henrique De Almeida Leal, Alex Sandro Babetto, Baltus Cornelius Bonse

THE EFFECT OF POLYPROPYLENE-BASED OLEFIN BLOCK COPOLYMER AND ORGANOCLAYS IN RECYCLED HDPE/PP NANO COMPOSITES
Andres F Reguil-Cedeño, Antonio Diaz-Barrion, Bolivar Alban, Miriam Lazo, Vanesa Molina, Julio Caceres, Jose Pilataxi

A HIGHLY STRETCHABLE AND THERMO-RECOVERABLE POLYSACCHARIDE BASED DOUBLE NETWORK HYDROGEL CONTAINING GRAPHENE OXIDE
Sara Tarashi, Hossein Nazoockdast, Gholamhossein Sodeifian

COMPARATIVE ANALYSIS OF BACTERIAL CELLULOSE BASED POLYMERIC FILMS FOR FOOD PACKAGING
Smarak Bandyopadhyay, Nabanita Saha, Petr Sáha

MFC CONCEPT AS A POSSIBLE SOLUTION FOR CLOSED-LOOP RECYCLING OF FOOD PACKAGING TRAYS
Maja Kazmanovic, Laurens Delva, Carla Isabel Martins, Ludwig Cardon, Kim Ragaert

EFFECT OF THE CHEMICAL MODIFICATION ON THE THERMAL AND RHEOLOGICAL PROPERTIES OF DIFFERENT POLYLACTIDES FOR FOAMING
Svenja Murillo Castellón, Tobias Standau, Volker Alstädt, Christian Bonten

PREPARATION THERMORESPONSIVE SEMI IPN MAGNETIC NANOGELS BASED ON POLY(VINYLCAPROLACTAM/CARBOXYMETHYL CELLULOSE) FOR LOCALIZED DRUG DELIVERY
Hamed Mohammad Gholiha, Morteza Ehsani, Ardeshir Saieidi, Mojgan Bahrami, Sogand Safari

IMPACT OF ELECTROSprayed PCL/NANO-HYDROXYAPATITE PARTICLES ON THE PROPERTIES OF ELECTROSPUN PCL NANOFIBERS
Pedram Karimipour-Fard, Ghaus Rizvi, Remon Pop-Iliev

EVALUATION OF THE PROPERTIES OF CORN COB HEMICELLULOSE BASED BIODEGRADABLE FILMS OBTAINED BY EXTRUSION AND SOLVENT CASTING METHODS
Busra Akinalan Balik, Necati Ozkan, Ufuk Bulukbası

DUAL RESPONSIVE NANOGELS BASED ON CHITOSAN-NPAM DECORATED WITH AU/Fe3O4 NANOPARTICLES AS A CARRIER FOR CONTROLLED DRUG RELEASE
Mina Bagherifard, Mohadeseh Doroudian, Ali Pourjavadi

INFLUENCE OF COMPOSITION, UNI/BIAXIAL STRETCHING AND CONSTRAINED ANNEALING ON THE EVOLUTION OF STRUCTURE AND DIELECTRIC PROPERTIES OF PEI/PBT AND PEI/PET BLENDS
Zeynep Muthu, Miko Cakmak
