# TABLE OF CONTENTS

## VOLUME 1

**ELECTROCHEMICAL CORROSION BEHAVIOR OF CARBON STEEL WITH AND WITHOUT RESIDUAL ELEMENTS** ................................................................. 1  
*Suresh Divi*

**CASE STUDY: WELD REPAIR OF AGED HYDROGEN REFORMER BULL TEE** ........................................ 13  
*François Gilbert*

**CREVICE CORROSION OF ALLOY 625 STRAKE BANDS IN SEA WATER** ........................................ 28  
*Sri Krishna Chimbli*

**STATISTICAL MODELING OF WEATHER DATA FOR REPRESENTATIVE ENVIRONMENTAL SEVERITY TESTING** .................................................. 43  
*David Rusk*

**CATHODIC PROTECTION OF STRUCTURES IN A CONFINED AREA USING REMOTE ANODES** .................................................................................................................................................. 59  
*Hongbo Ding*

**CIRCUIT RESISTANCE DETERMINATION IN IMPRESSED CURRENT CATHODIC PROTECTION SYSTEM FOR ABOVE GRADE STORAGE TANK BOTTOMS USING A GRID SYSTEM** ........................................................................................................ 69  
*Hongbo Ding*

**EFFECT OF BLOCKING COMPOUND ON ELECTROCHEMICAL CORROSION BEHAVIOR OF WIRE ROPE AT GULF OF MEXICO SURFACE AND SUBSEA TEMPERATURES** ........................................ 78  
*Suresh Divi*

**MICROBially INFLUENCED CORROSION PERFORATION FAILURE ANALYSIS OF L80 TUBING IN WATER INJECTION WELLS IN A MIDDLE EAST OILFIELD** .......................................................... 93  
*Rong Ye*

**CORROSION CONTROL USING INHIBITOR SYSTEMS BASED ON PHOSPHONATES AND METAL PHOSPHONATE MATERIALS** .................................................. 103  
*Kostas Demadis*

**DISTINCT MECHANISMS OF SILICA SCALE FORMATION: SILICIC ACID POLYCONDENSATION AND SILICA PARTICLE GROWTH** ........................................................................................................ 115  
*Kostas Demadis*

**DEVELOPMENT OF A NEW VAPOR CORROSION INHIBITOR FOR CORROSION UNDER INSULATION AT ELEVATED TEMPERATURES** .......................................................... 130  
*Behzad Bavarian*

**IMPROVING THE DURABILITY OF PACKAGING MATERIALS USING VAPOR PHASE CORROSION INHIBITORS** .......................................................... 140  
*Behzad Bavarian*

**WATER HAMMER AND FATIGUE STRENGTH REDUCTION FROM GRIT BLASTING FOR COATINGS** ........................................................................................................ 157  
*Robert Leishear*
CUT-BACK EDGE CATHODIC DISBONDMENT SUSCEPTIBILITY OF EXPOSED BARE FIELD JOINTS IN OFFSHORE PIPELINES ................................................................. 172
Mirnaly Saenz De Miera

SMOKE CORROSIVITY EVALUATION FOR DATA CENTER COMPONENTS ..................................................... 184
Paul Su

INVESTIGATION OF THE CORROSION PERFORMANCE OF STAINLESS STEEL AND LOW ALLOY STEEL SUCKER ROD MATERIALS IN AGGRESSIVE ENVIRONMENTS................. 199
Aleksey Shakhmatov

HYDROGEN EMBRITTLEMENT OF SS 316L INSTRUMENT TUBING IN HYDROPROCESSING UNIT ......................................................................................................................... 213
Rajaram Chidambaram

MICROBIOLOGICALLY INFLUENCED CORROSION BY GENERAL AEROBIC AND ANAEROBIC BACTERIA IN OIL &AMP; GAS SEPARATORS ................................................. 228
Yousef Khuraibut

TWO WAY APPLICATION OF CORROSION INHIBITOR IN GAS AND CONDENSATE FIELD.............................................................................................................................. N/A
Susumu Hirano

EFFECTIVENESS OF EPOXY AND MOISTURE-CURE POLYURETHANE COATINGS IN CORROSION MITIGATION OF EMBEDDED REBAR- AN EXPERIMENTAL STUDY ............... 240
Ragghava Kumar Vanama

STRESS CORROSION CRACKING OF AUSTENITIC GRADE 347 AND DUPLEX GRADE 2205 STAINLESS STEELS IN REFINERY SIMULATED MEDIA CONTAINING HYDROGEN SULFIDE AND C ............................................................................................................ 255
K Ravindranath

A NOVEL METHOD FOR THE ENHANCED KILL OF SULFATE REDUCING MICROORGANISMS ..................................................................................................................... 266
Gary Jenneman

FE₂O₃, FECO₃, OR FES - WHICH ONE WILL PREVAIL AT HIGH TEMPERATURE IN CO₂/H₂S ENVIRONMENTS? ....................................................................................... 279
Shujun Gao

PRACTICAL ENVIRONMENTALLY-ASSISTED CRACKING THRESHOLD STRESSES FOR THE SAFE USE OF STAINLESS STEELS IN SERVICE EQUIPMENT ......................................................... 292
Manuel Marya

ON COMPARING AND PREDICTING THE CREVICE CORROSION RESISTANCE OF AUSTENITIC DRILLING ALLOYS WITH TYPICAL DOWNHOLE PRODUCTION ALLOYS ............ 306
Manuel Marya

IMPACT OF O₂ CONTENT ON CORROSION BEHAVIOR OF X65 MILD STEEL IN GASEOUS, LIQUID AND SUPERCritical CO₂ ENVIRONMENTS .................................................. 321
Xiu Jiang

A NEW SYSTEM OF CORROSION FLOW LOOPS AND SOME EXPERIMENTAL RESULTS ............. 339
Jinyang Zhu

EXPLORING CATHODIC PROTECTION OF STRANDS IN POST TENSIONED TENDONS ....................... 2461
Alberto Sagues

MONITORING CHANGE OF A LOW-PPM DOSAGE CORROSION INHIBITOR OVER TIME IN A LONG-DISTANCE PIPELINE CARRYING VERY LIGHT HYDROCARBONS .............................................. 2470
Hitesh Bagaria

CORROSION OF OPEN CELL ALUMINUM FOAMS IN SIMULATED MARINE ENVIRONMENTS ................ 2480
Ho Lun Chan

AIR COOLERS IN WET SOUR SERVICES - PLUG GASKETS LEAKAGE DURING STARTUP .................. 2490
Cathleen Shargay

CORROSION AND EROSION STUDIES OF CERAMIC AND METAL MATRIX COMPOSITES .................. 2503
Joshua Diaz

CLOSED LOOP SYSTEMS: ELECTROCHEMICAL STUDIES ON NITRITE/MOLYBDATE CORROSION INHIBITORS ......................................................................................................................... 2511
Mary Jane Felipe

CORROSION BEHAVIOR OF ZIRCONIUM-BASED COMPOSITES ....................................................... 2520
Michael Kloesel

ELECTROCHEMICAL EVALUATION OF NOVEL TITANIUM ALLOYS .................................................. 2526
Thu Nguyen
USE OF HALOPHYTES TO MANAGE SOIL CHARACTERISTICS IN JOINT USE
ENVIRONMENTS ........................................................................................................................................  2535
  Jon Brasher

CORROSION BEHAVIOR OF 304L STAINLESS STEEL PRODUCED BY LASER POWDER
BED FUSION.................................................................................................................................................  2547
  Ho Lun Chan

PASSIVE FIRE PROTECTION CONSIDERATIONS FOR OIL SANDS APPLICATIONS ...................... 2556
  Necip Akinci

CORROSION UNDER HOT DILUTE ACIDIC PRE-HYDROLYSIS BIOREFINING PROCESS .......... 2568
  Minkang Liu

CORROSION ASSESSMENT OF CANDIDATE CONSTRUCTIONAL ALLOYS UNDER
HYDROTHERMAL LIQUEFACTION BIOREFINING CONDITIONS .......................................................... 2583
  Minkang Liu

CORROSION OF CANDIDATE ALLOYS FOR HYDROTHERMAL LIQUEFACTION (HTL)
REACTOR UNDER BATCH-MODE OPERATION ......................................................................................  2598
  Minkang Liu
