2020 IFEES World Engineering Education Forum - Global Engineering Deans Council (WEEF-GEDC 2020)

Cape Town, South Africa
16-19 November 2020
## Contents

A case of implementation of an iPeer software tool to assess and develop engineering students’ teamwork capabilities in a large class environment, *Saija Bezuidenhout*  
Project management of global project-based learning course for innovation and sustainable development, *Masahiro Inoue, Kazumori Mano, Maria Anityasari, Sayoko Oda, Atsuko K. Yamazaki, Hiroshi Hasegawa, Anak Khantachawana*  
Engineering students’ perspectives on the use of group work peer assessment in two undergraduate Industrial Engineering modules, *Nadia M. Trent, Johan W. Joubert, Wilna L. Bean*  
Reflecting on the success of a peer mentorship programme – A scholarly personal narrative, *Maraka Lefera, Arthur James Swart*  
Modes of entry as predictors of academic performance of engineering students in a Nigerian university, *John A. Olorummafe, Joshua O. Oladeye, Olaelekan J. Ogunnuyi, Ademola A. Ajayi-Banji, Taiwo Yahaya*  
Engineering student attitudes to e-reading in remote teaching environments, *Sherif Welsen, Matthew Pike, James Walker*  
The utilization of augmented reality technologies within the utilization of augmented reality technologies within the engineering curricula – opportunities and challenges, *Dana Al Akil, Vian Ahmed, Sara Saboor*  
Effects of coronavirus pandemic spread on science, technology, engineering and mathematics education in higher learning institutions, *Shadrack Maina Mambo, Fidel Makatia Omusilibwa*  
Flexible learning during educational disruption: A case study of teaching integrated circuits design, *Sherif Welsen, Peter Morgan, James Walker*  
Students' preferred mode of teaching: Blended vs. traditional face to face instruction, *Tebogo Mashifana*  
An assessment of the students' attitudes toward engineering design and build projects, *Lagouge Tartibu, Rita Steenkamp*  
An exploratory study of student and industry professional's knowledge of sustainability in curriculum development, *Sweta Patnaik, Reena Pandarum*  
Understanding the role that non-academic factors play on students' experience during the COVID-19 pandemic, *Maria Chierichetti*  
Automated generation of test questions and solutions, *Warren P. du Plessis*  
Exploring student perspectives on assessment practices in an engineering context, *Teresa Hattingh, Laura Dison*  
‘Assessment as Learning’ as a tool to prepare engineering students to manage ill-defined problems in industry, *Bronwyn Swartz*  
Engineering student experiences of a remotely accessed, online learning environment, *Teresa Hattingh, Yalani Geldenhuys, Willem van Niekerk, Henri Marais*  
Discussion forums in Vector Calculus: Reflecting on the quality of engineering students' online interactions, *Pragashni Padayachee*  
Supporting departmental innovation in eLearning during COVID-19 through e-Learning champions, *Sweta Patnaik, Daniela Gachago*  
Skills obsolescence and education global risks in the Fourth Industrial Revolution, *Patricia Caratazzolo, Clara Piloto Massachusetts, Gabriela Sirks, Marc Correa*  
Student industrial secondments in East Africa: Improving employability in engineering, *Misambya Mutambala, Gussai Sheikhdeldin, Bavo Nyichomba, Bitrina Villalonga*  
Multi-party collaborative education: A new way to train high-quality engineering talents in China, *Jian Lin, Lele Geng*  
Engineering graduates at a South African university and their prospective employers – expectations and reality, *Khalid Osman, Cecile Naomi Gerwel Proches*  
Disruptive engineering and education in emerging economies: challenges and prospects, *Abdulwaheed Musa, Abdul G. F. Alabi*  
Industry 4.0 Competence Maturity Model design requirements: A systematic mapping review, *Whisper Maisiri, Liezl van Dyk*  
Preparing 5.0 engineering students for an unpredictable Post-COVID world, *Rouvrais Siegfried, Gerwel Proches Cecile, Audunsson Haraldur, Chelin Nathalie, Lien Inggrani, Tudela Villalonga*  
Practical approaches to implement graduate attributes in engineering faculties, *Rita Steenkamp, Lagouge Tartibu*  
Short-term study abroad: Enhancing engineering students' motivation for global experience, *Sayoko Oda, Atsuko K. Yamazaki, Masahiro Inoue*
Contents

Role of Community of Practice (CoP) to facilitate change in STEM instructional practices through faculty development programs, Dr Rohit Kandakatla, Anurag Palla ........................................ 146
Exploring the curricular content of engineering ethics education in Ireland, Diana Adela Martin, Eddie Conlon, Brian Bowe ................................................................. 151
Ethics in Engineering Education 4.0, Bronwyn Swartz ................................................................. 156
A journey to visibility: Making explicit the teaching and learning of ethics within the engineering undergraduate programme, Alison Gwynne-Evans ........................................ 161
Principles and pedagogies that shape a final-year Integrated Computer Engineering Project, Cheryl Collen Belford ................................................................. 168
“Embedded Systems” international master’s programme, Yulia Antokhina, Valentin Olenev, Yuriy Sheynin ................................................................. 173
Decision skills in engineering programs – a key for a VUCA Era, Rouvais Siegfried, Audunsson Horaldur, Esnault Liliane, Vikingur Fridgeirsson Thordur ............... 178
Baseline 2020 in engineering research projects in a private institution of higher education, Gabriela Cejas, Juan José Vulcano, Ariel Uema, Fernando Camuzzi ................................................................. 183
The relationship between mindset and academic achievement at university: A quantitative study of South African students, Mashudu Mokhithi, Anita L. Campbell, Jonathan P. Shock ................................................................. 187
Female enrolment and persistence in chemical engineering at a Caribbean national university and their employment success after graduation, Paula Olesia Verona Henry, Marvette Ava-Gaye Hall, Dianne Alecia Plummer ................................................................. 191
The validity of international instruments for assessing South African engineering students, Celeste Combrinck, Helen M. Inglis ................................................................. 196
