Design and Quality for Biomedical Technologies XIV

Jeeseong Hwang
Gracie Vargas
T. Joshua Pfefer
Editors

6–11 March 2021
Online Only, United States

Sponsored and Published by
SPIE
The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

ISSN: 1605-7422
ISSN: 2410-9045 (electronic)

Paper Numbering: Proceedings of SPIE follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.
## Contents

### COVID-19 AND SARS-COV-2

11633 04  Photonic designs to reduce morbidity and mortality for ICU patients on ventilators (Invited Paper) [11633-9]

### PHANTOMS AND STANDARDS

11633 09  Biomimetic 3D-printed fluorescence angiography phantoms for evaluation of neurosurgical microscopes (Invited Paper) [11633-4]
11633 0B  Retinal phantom applicable to OCT, OCT-angiography, and fundus angiography [11633-6]
11633 0C  Modeling and optimization of immersion medium for phototherapeutic light-emitting diode array for uniform light distribution [11633-7]

### MOBILE DEVICES AND SENSORS

11633 0F  Detection of thrombin protein with ball lens microresonator fabricated using CO₂ laser splicing system [11633-13]

### IMAGING DEVICES AND COMPONENTS

11633 0K  Calibration and artifact correction in an angular-domain fluorescence optical projection tomography system [11633-18]
