2021 3rd International Conference on Computer Science and Technologies in Education (CSTE 2021)

Online Conference
28 – 30 May 2021
Table of Contents

Preface vii .................................................................
Organizing Committee viii ...........................................
Keynotes x .................................................................
Sponsors xi ..................................................................

Basic Teaching and Methods

Design and Application of Knowledge-Building Smart Learning Environment in Primary Education 1
Junmei Sun (Shaanxi Normal University, China), Dong Han (Shaanxi Normal University, China), Hongliang Ma (Shaanxi Normal University, China), Yibing Zhang (Nanjing Normal University, China), and Yanlin Li (Shaanxi Normal University, China)

A Research on the Mixed Teaching Mode of “MATLAB Simulation Technology” Based on MOOC+SPOC+Flipped Classroom 9
Yongyu Wang (Shandong Technology and Business University, China)

Research and Practice of Hybrid Mixed Teaching Mode in COVID - 19 Times 14
Lin Tang (Chifeng University, China), Yanjuan Ren (Chifeng University, China), Lijuan Ji (Chifeng University, China), and Rongrong Cui (Chifeng University, China)

Teaching Reduction as an Algorithmic Problem-Solving Strategy 19
Iris Gaber (The Academic college of Tel-Aviv Yaffo, Israel), Michal Armoni (Weizmann Institute of Science Israel, Israel), and David Statter (Afeka Academic College of Engineering, Israel)

Empowering Learning in Low-Performing Schools Through Synchronous Remote Twining Classes 27
Xiaolin Liu (Shaanxi Normal University, China), Zixuan Gao (Shaanxi Normal University, China), Xueyan Xia (Shaanxi Normal University, China), Nana Liang (Shaanxi Normal University, China), and Zhiliang Qiao (Shaanxi Normal University, China)

Application Exploration of Immersive Teaching Method in Medical Experiment Teaching 32
Jie Wu (Xi’an Medical University, China)

Research on STEM Curriculum Integration Technology 37
Jingyu Nie (Beijing Normal University, China)
Advanced Educational Technology and Learning

Simulation of Automatic Overtaking Based on OBU and RSU 43
Yunxiang Liu (Computer Science Institute Shanghai Institute of Technology, China), Jianlin Zhu (Computer Science Institute Shanghai Institute of Technology, China), Xinxin Yuan (Computer Science Institute Shanghai Institute of Technology, China), Yu Zhang (Computer Science Institute Shanghai Institute of Technology, China), Qi Xu (Computer Science Institute Shanghai Institute of Technology, China), and Qianxun Guan (Computer Science Institute Shanghai Institute of Technology, China)

Test Cheating Detection Method Based on Random Forest 47
Haiyang Hu (Long-Spring Education Group, China), Zhizhuang Li (Long-Spring Education Group, China), and Zisihan Wang (Long-Spring Education Group, China)

The Design and Evaluation of Teaching Activities Combining Traditional Lantern Craftsmanship with Primary Education in the Perspective of Intangible Cultural Heritage 53
Xin-Zhu Li (National Taipei University of Technology, Taiwan), Chun-Ching Chen (National Taipei University of Technology, Taiwan), and Xin Kang (Ningbo Tech University, China)

Student Performance Mining Based on Kernel Density Estimation Interval and Association Rules 58
Yun Xiang Liu (Shanghai Institute of Technology, China), Feng Zhou (Shanghai Institute of Technology, China), and XinXin Yuan (Shanghai Institute of Technology, China)

A Theoretical Model for the Design and Development of C-STEM Curriculum in China 64
Zhihui Yu (Northwest Normal University, China) and Yanjuan Liu (Capital Normal University, China)

Experimental Research and Application of Computerized Adaptive Tests to Assess Learners' Competencies 69
Thai Hung Le (VNU - University of Education, Vietnam) and Thai Ha Nguyen (VNU - University of Education, Vietnam)

Learning Strategy Based on Deep Knowledge Tracing 75
Ye Tian (Beijing Institute of Technology, China), Zhendong Niu (Beijing Institute of Technology Library, China), and Donglei Liu (Beijing Institute of Technology, China)

AI Education in Massive Open Online Courses: A Content Analysis 80
Xinyu Zhou (South China Normal University, China), Yao Tong (South China Normal University, China), Xixin Lan (South China Normal University, China), Kelin Zheng (South China Normal University, China), and Zehui Zhan (South China Normal University, China)

Author Index 87
